# SHOWCASES

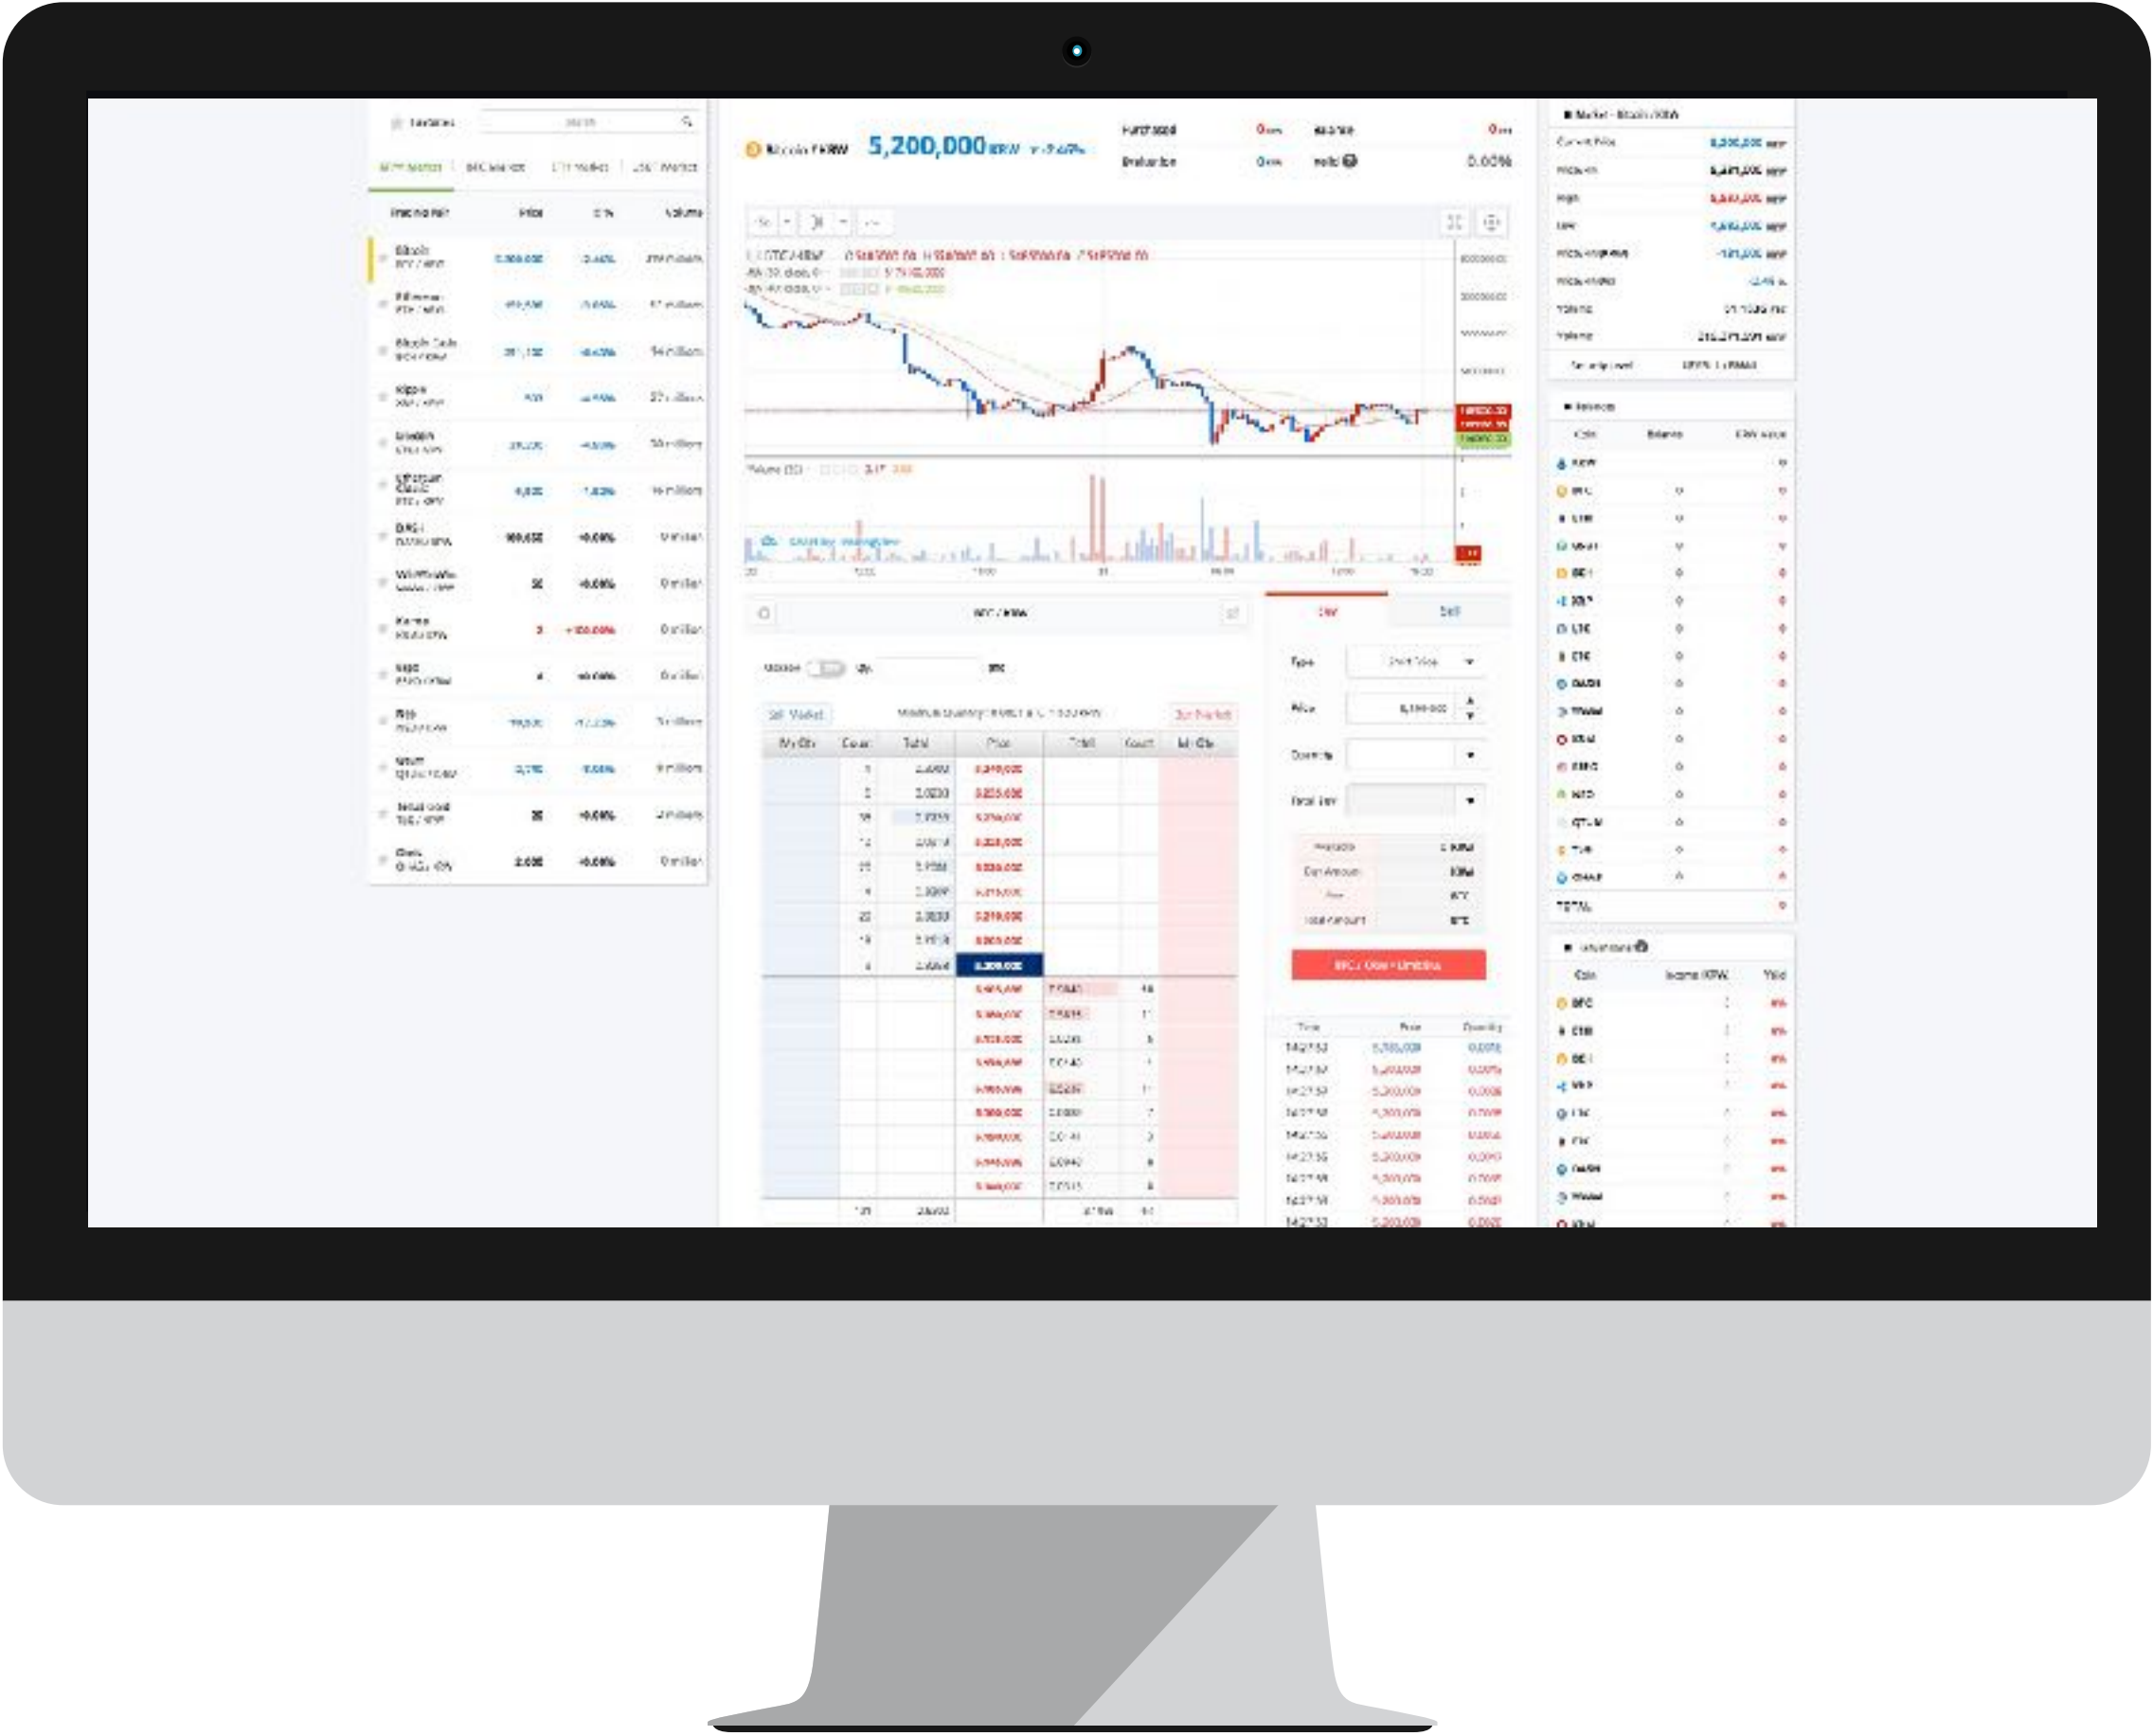

Our masterpieces

---

We only present the projects that our client allowed us to show in the NDA agreement

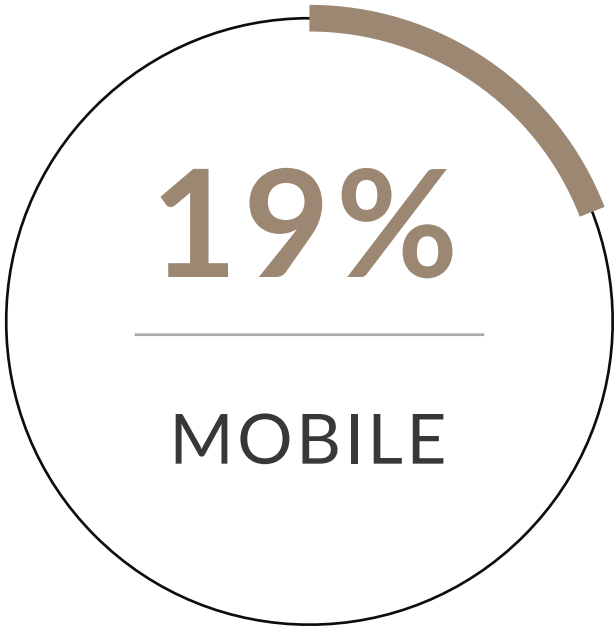

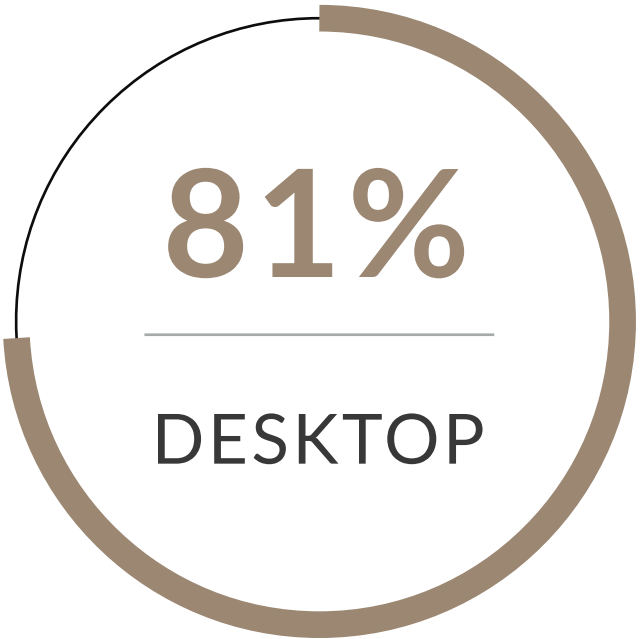

# EXCHANGE

## BITKOEX.COM

This is a centralized crypto-currency exchange which supports fiat (KRW) pairs.

This site is designed for pro-traders with extensive information in 1 page for decision making

User Distribution

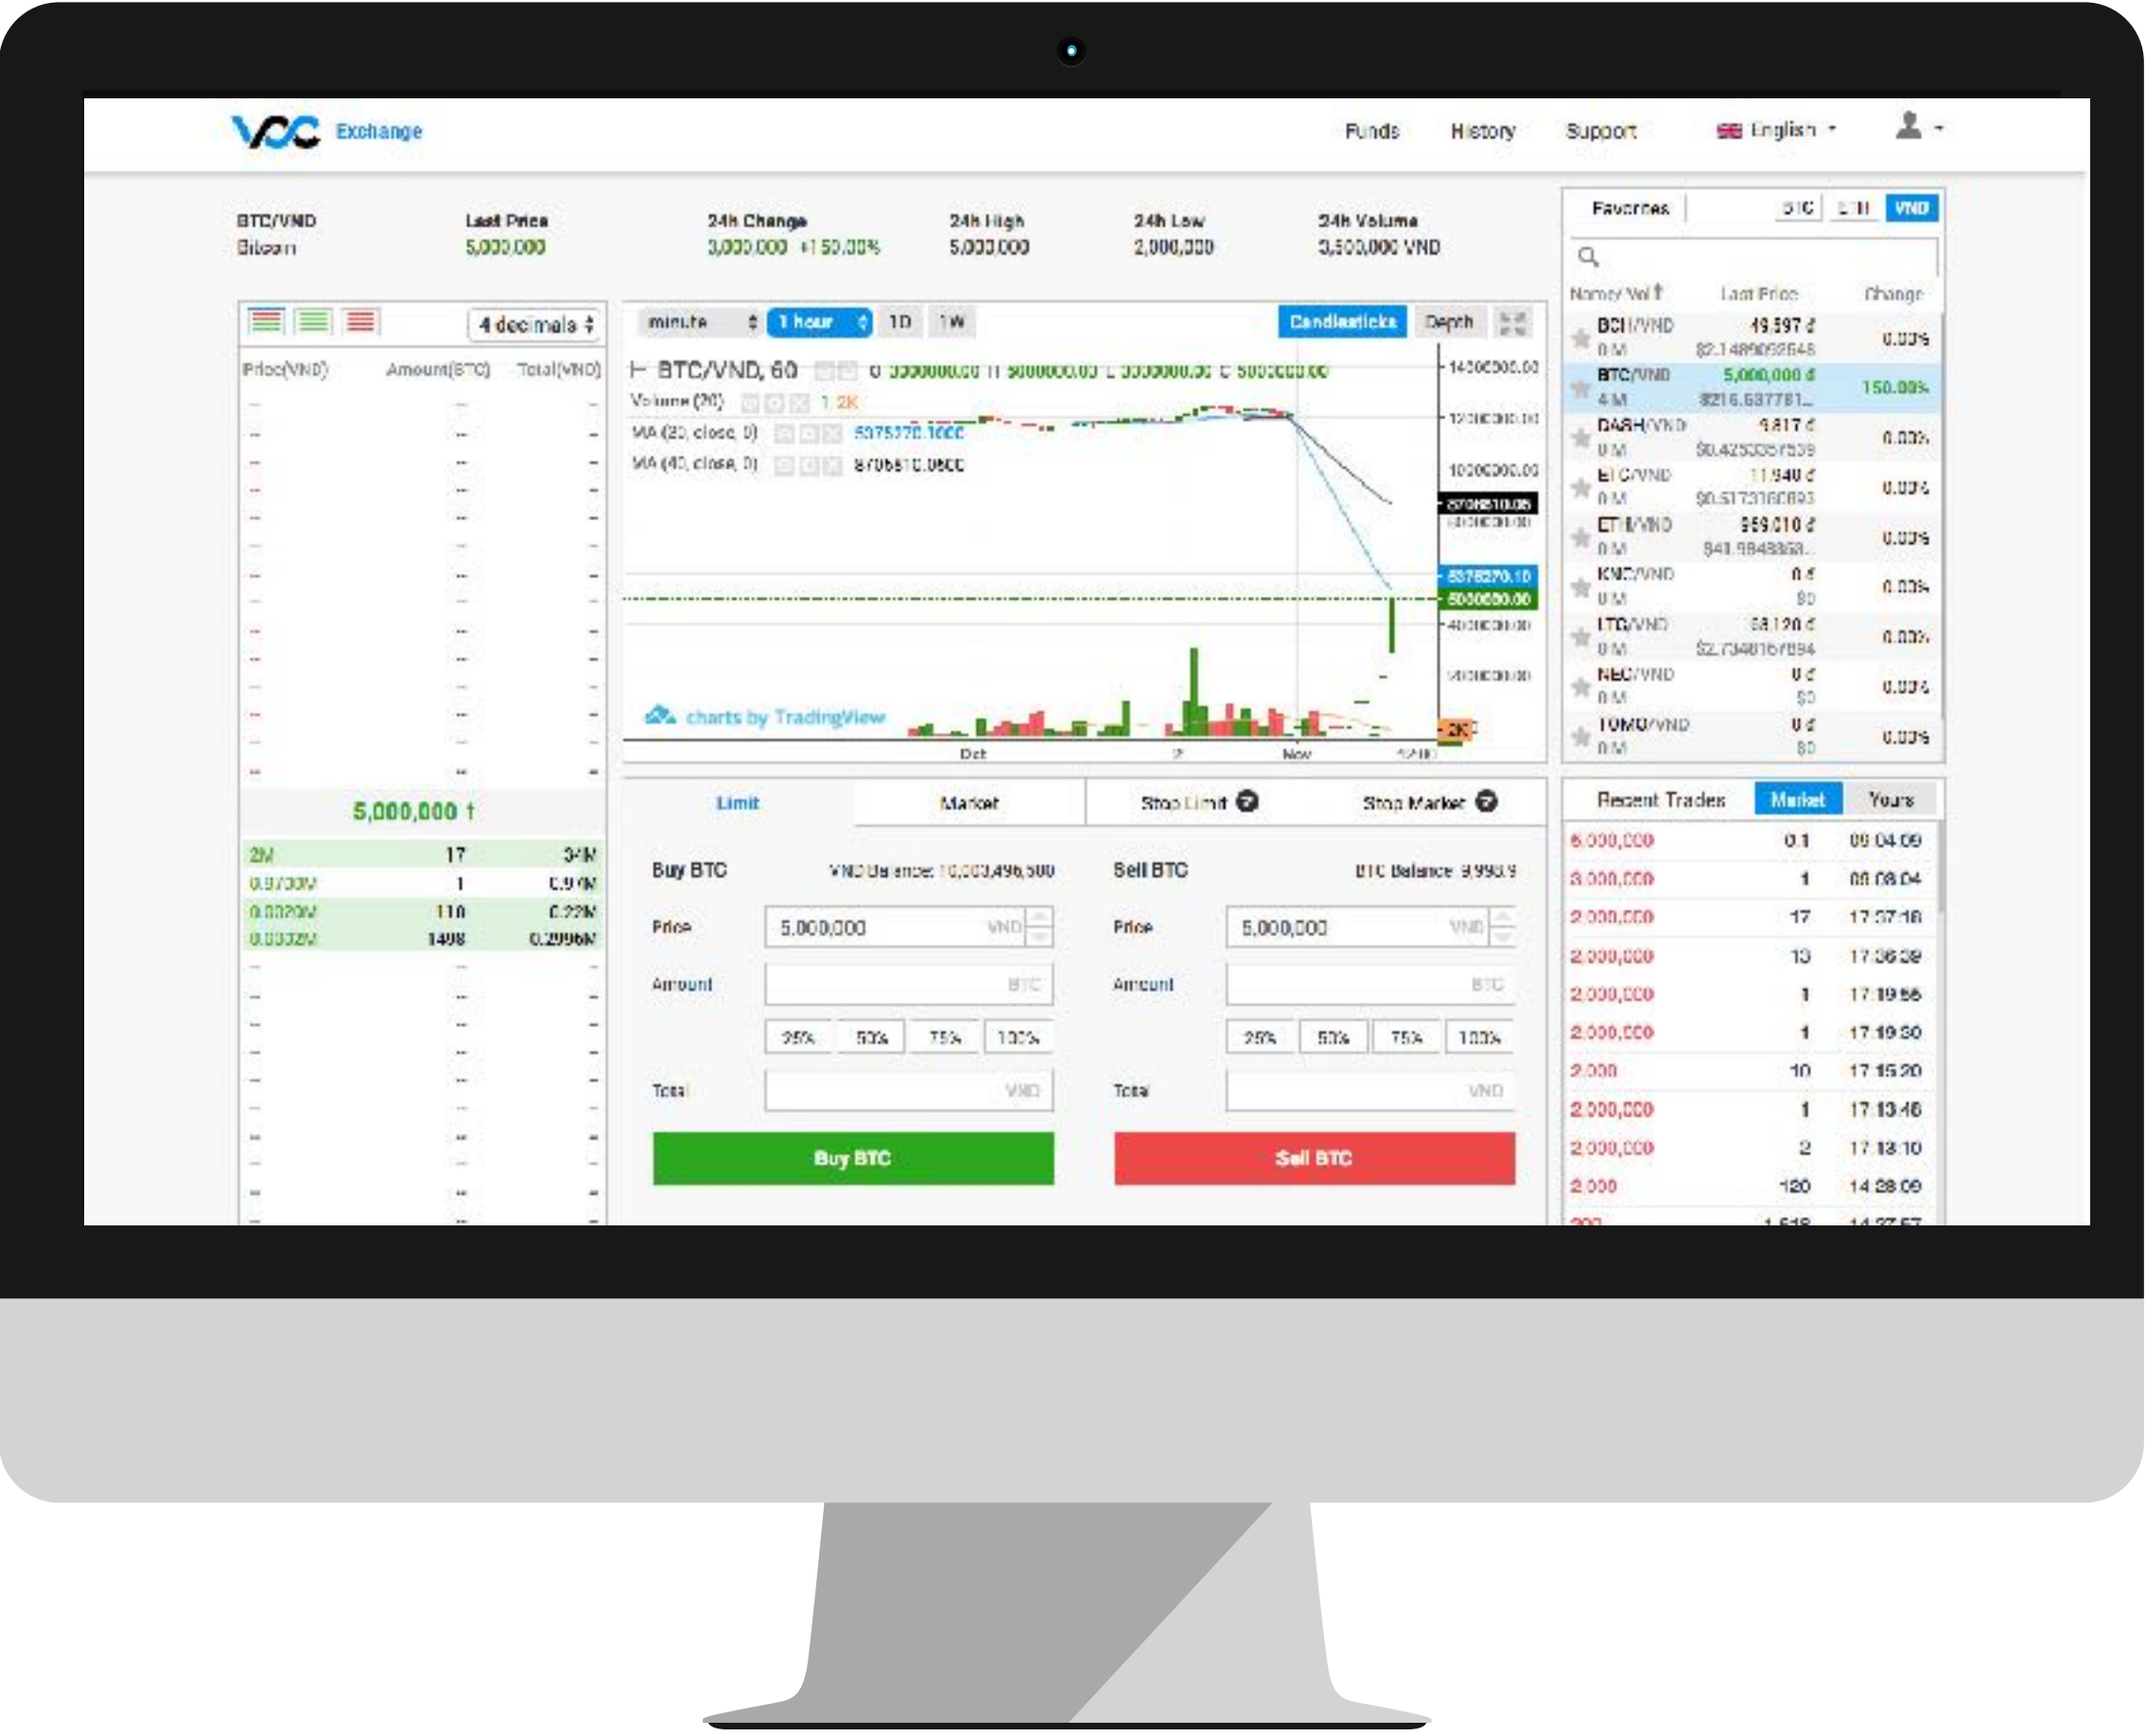

## BITKOEX GRAND OPENING EVENT

# EXCHANGE

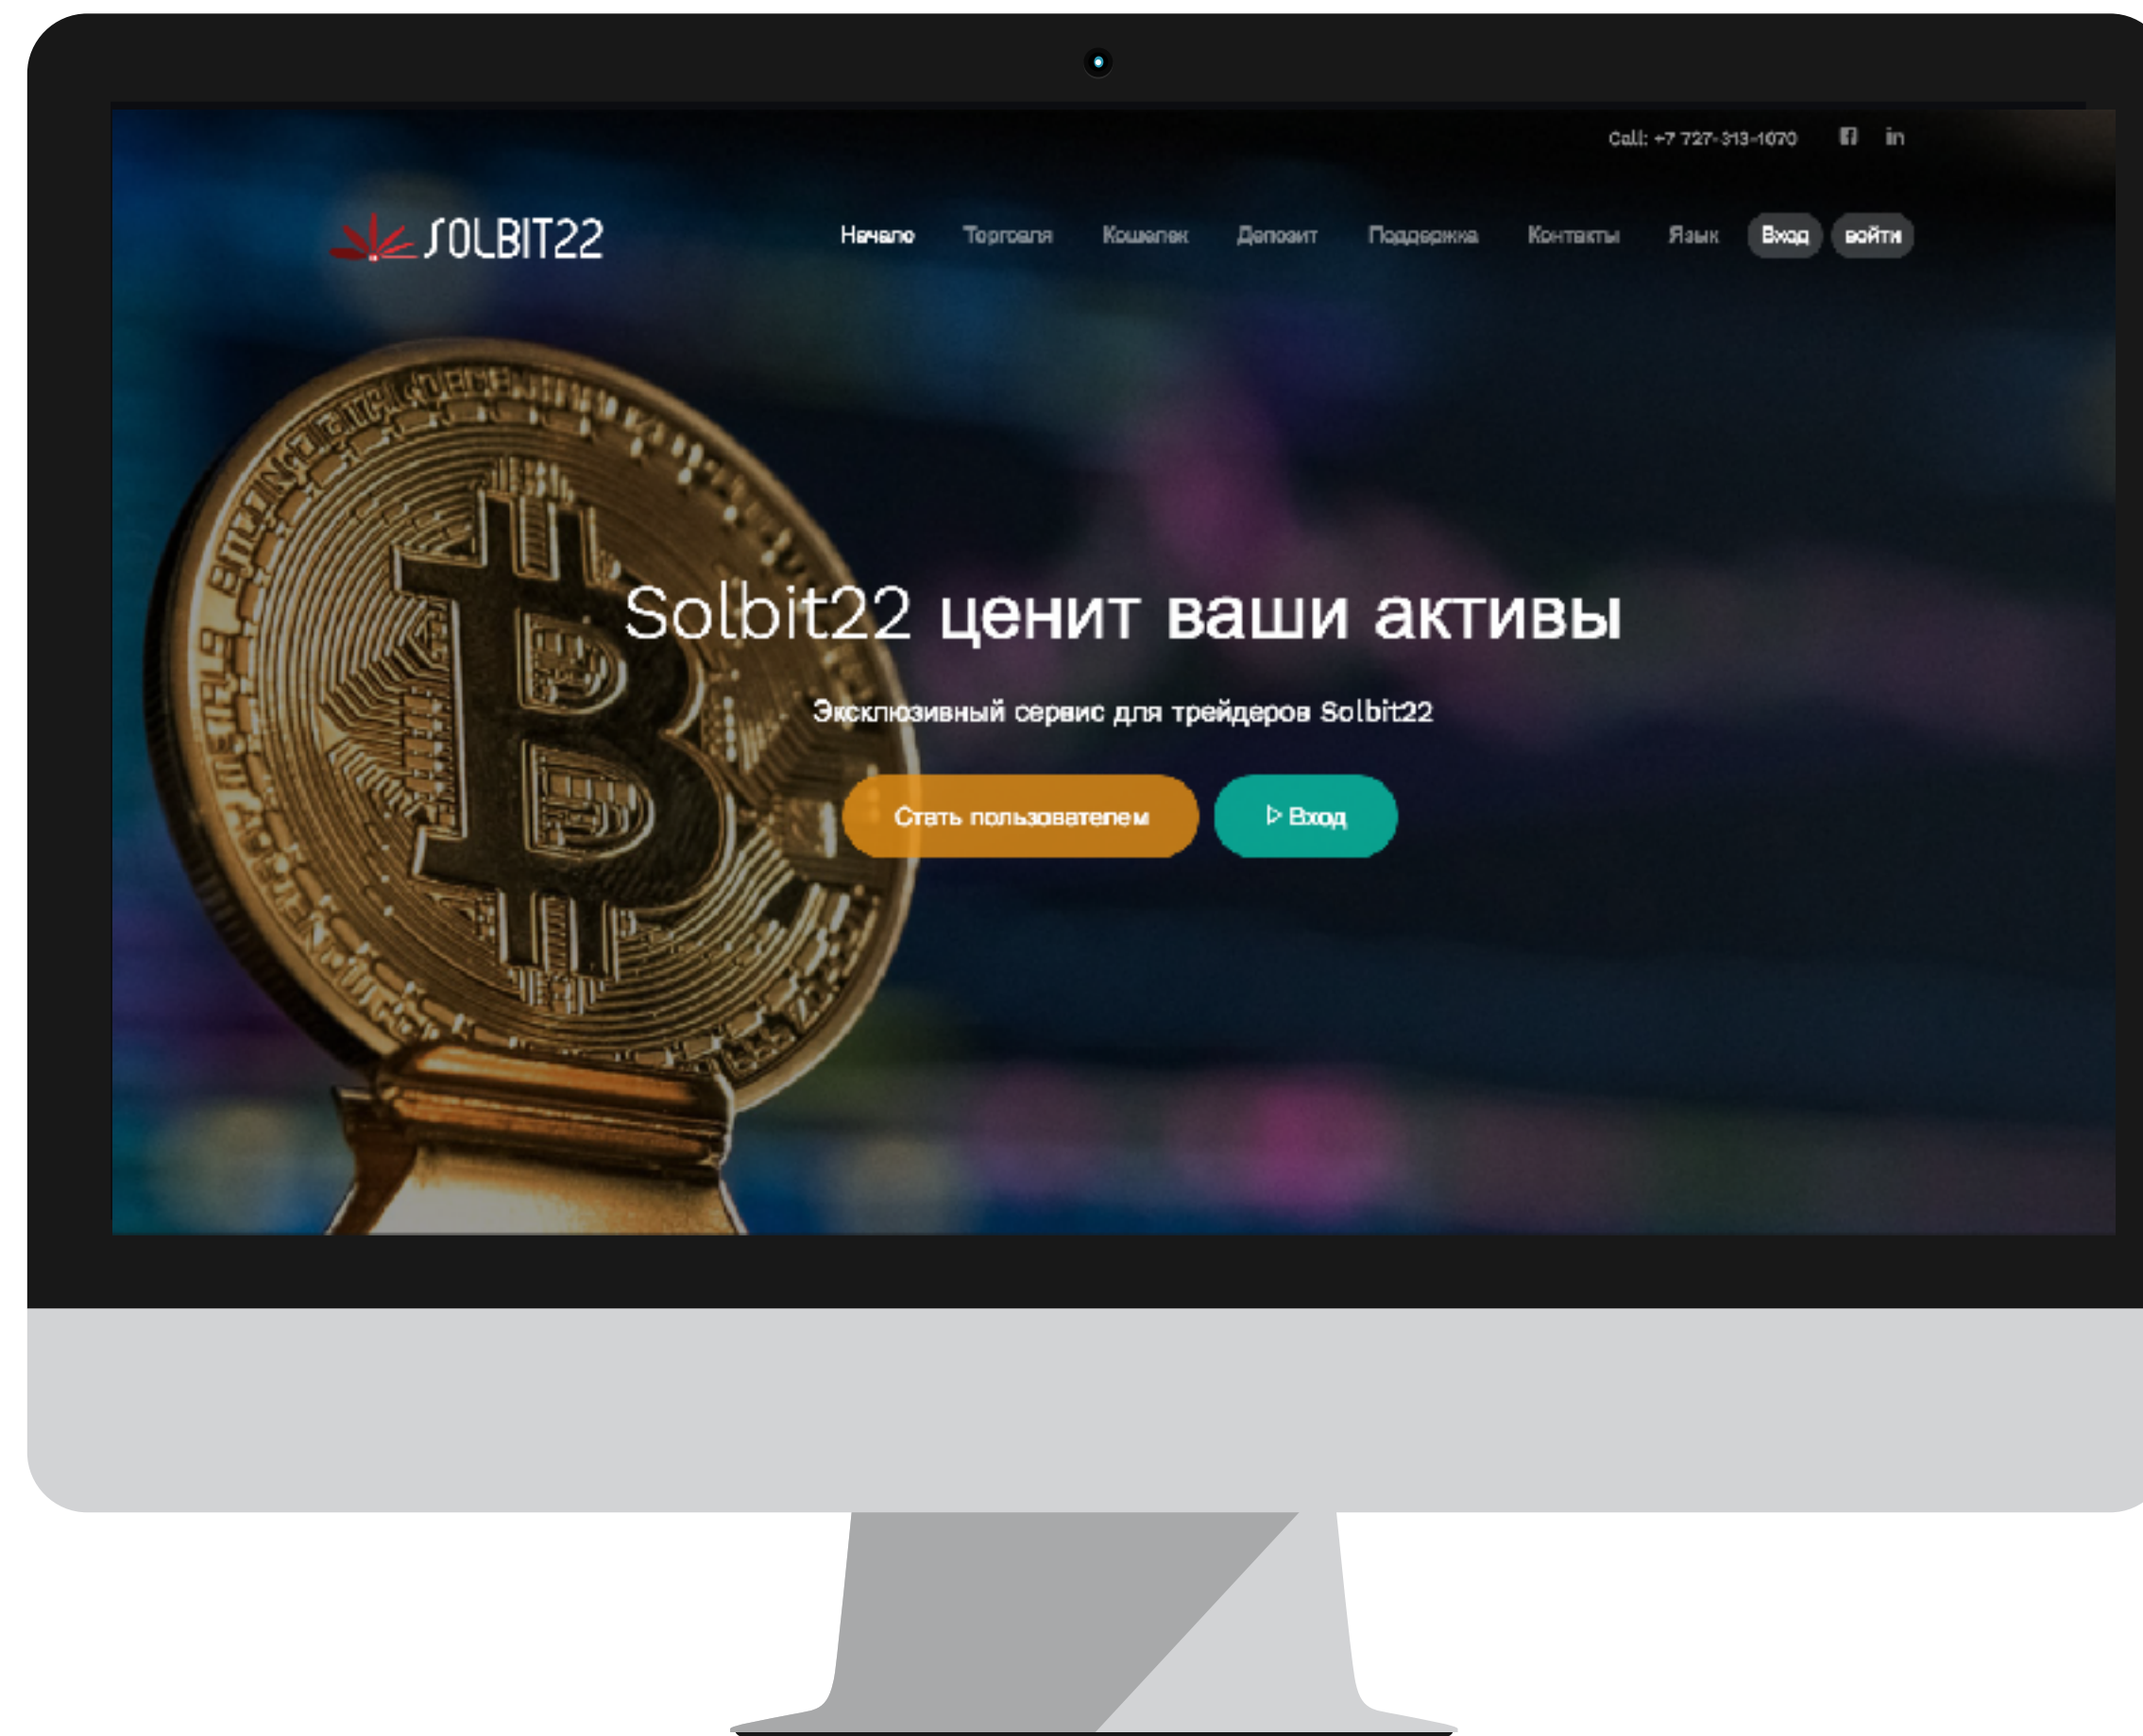

## VCC.EXCHANGE

A Binance competitor cryptocurrency exchange for local market. It has most of the features of binance.com

It also supports order book sharing with other exchanges like bittrex.com to provide liquidity

# EXCHANGE

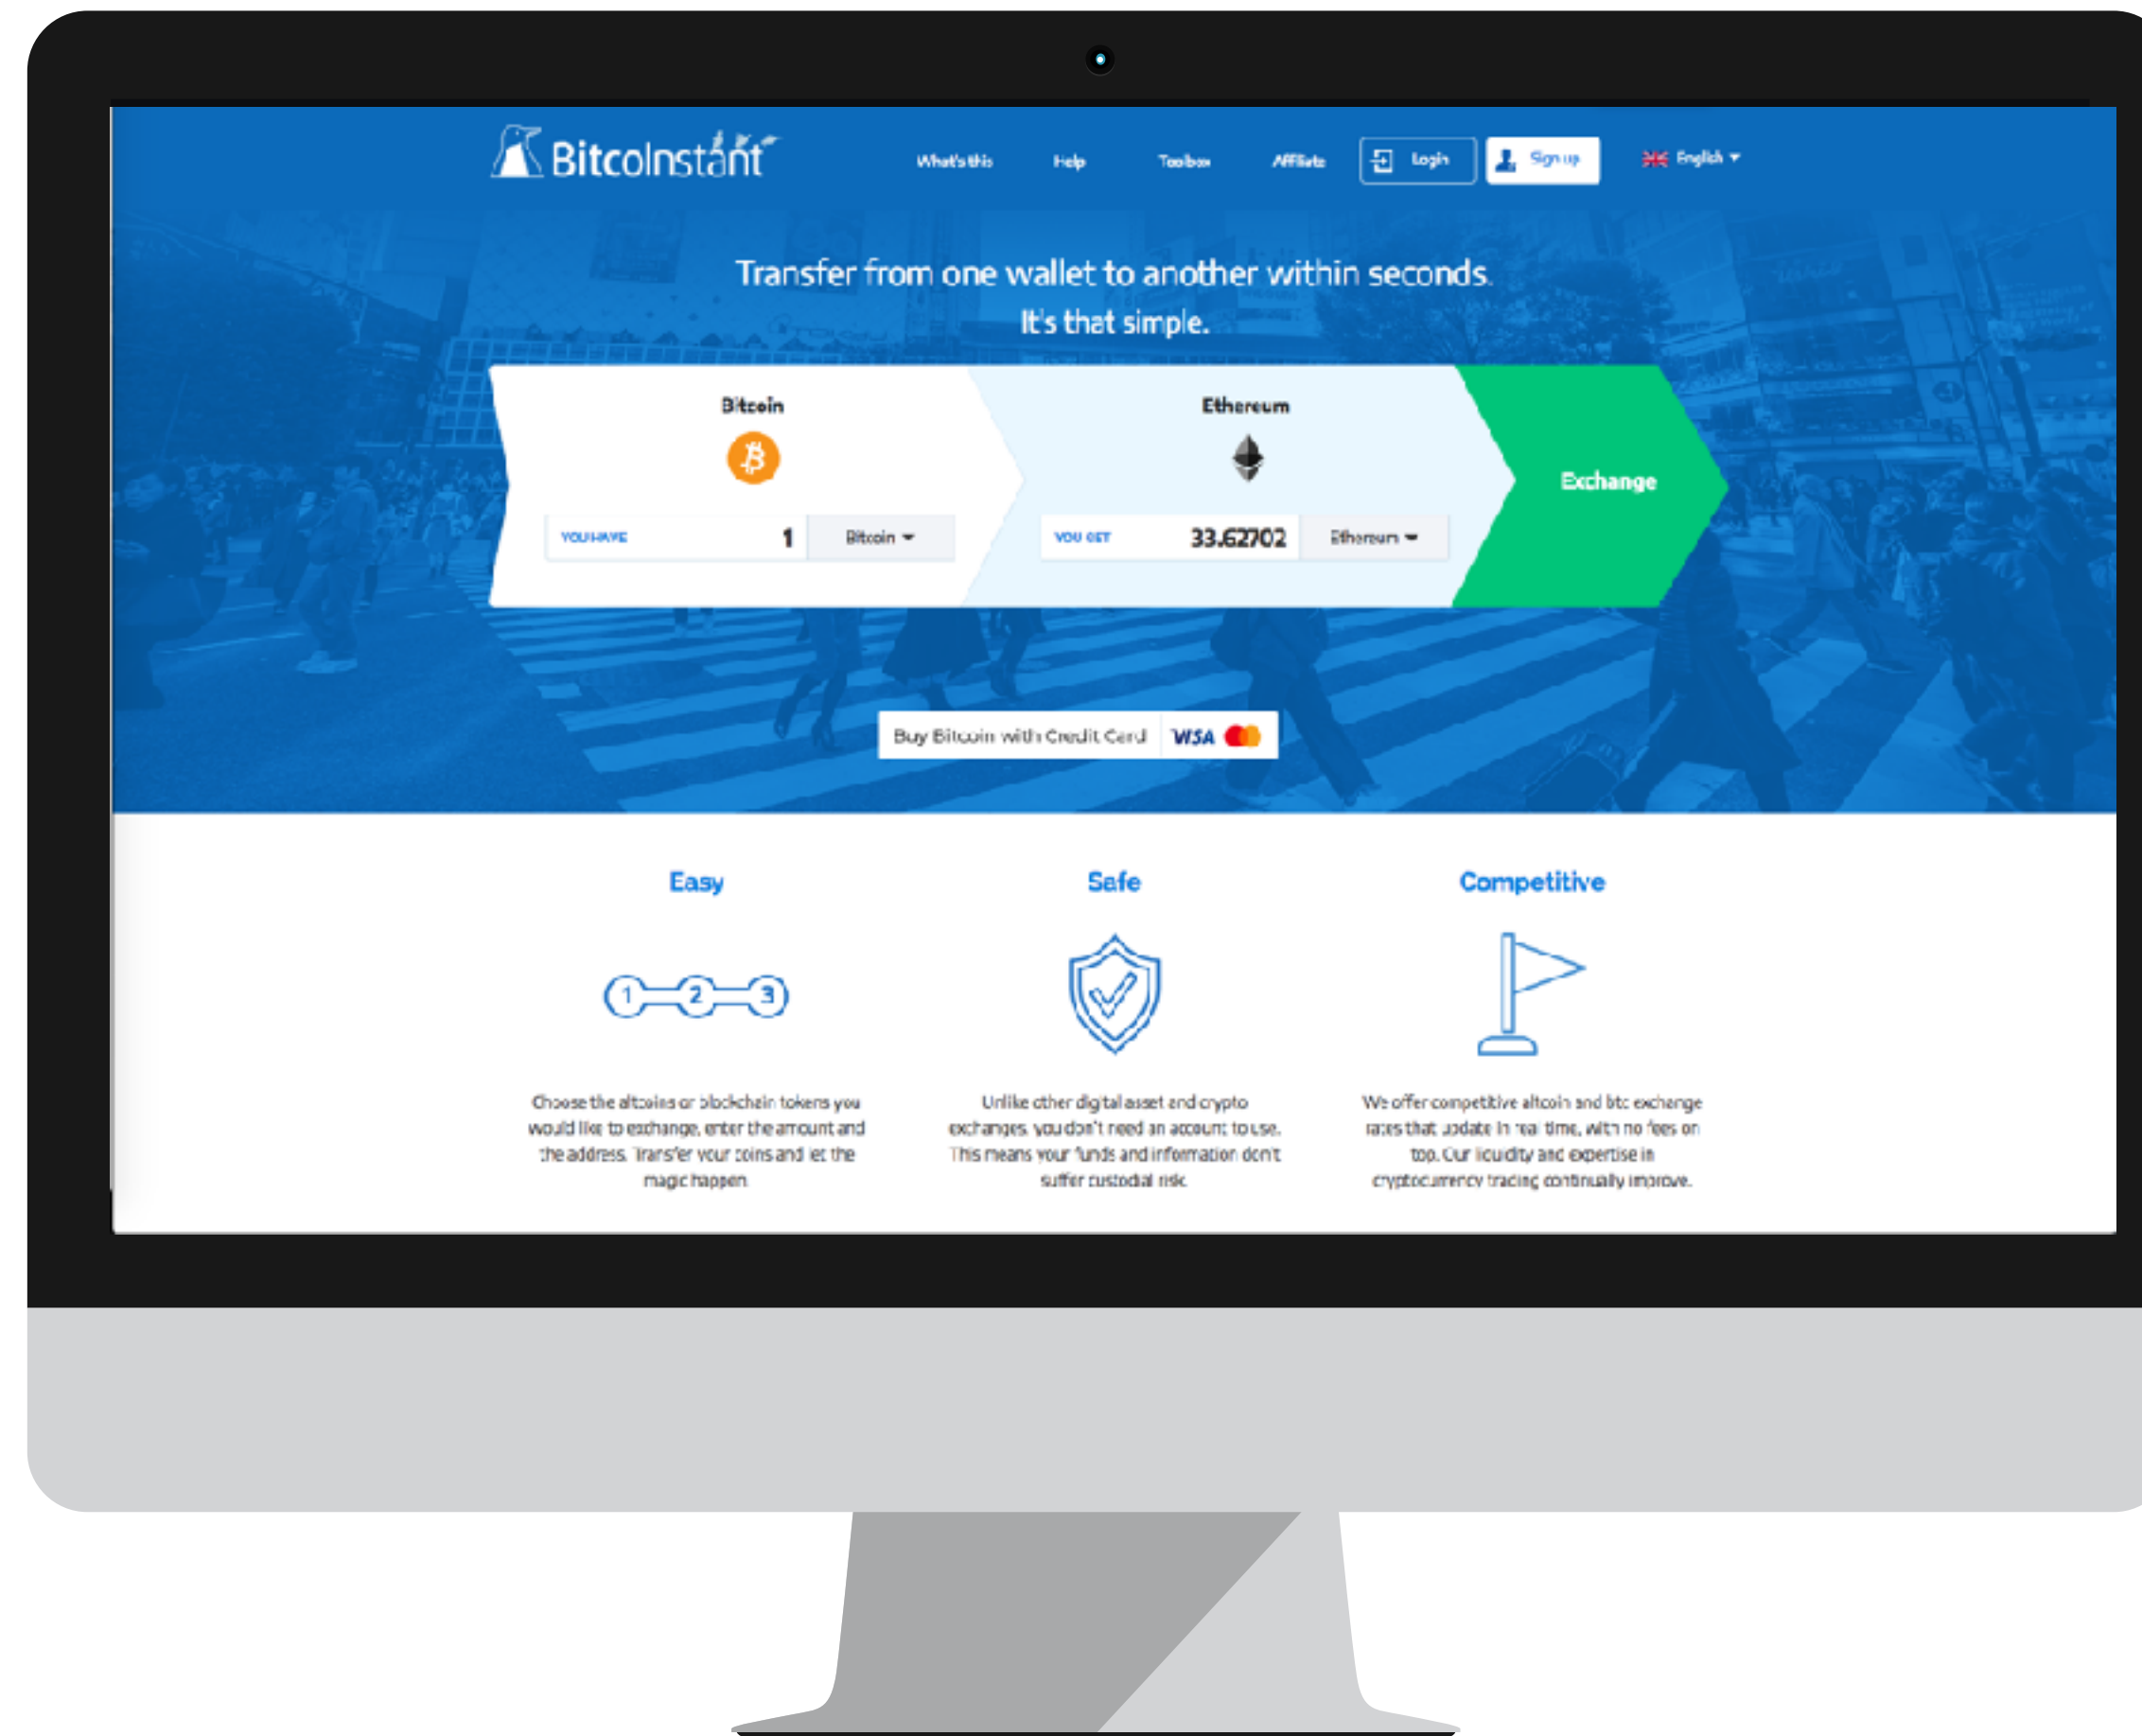

## SOLBIT22.COM

Yet another centralized cryptocurrency exchange for Kazakhstan market.

It also supports local fiat currency in this local market.

# EXCHANGE

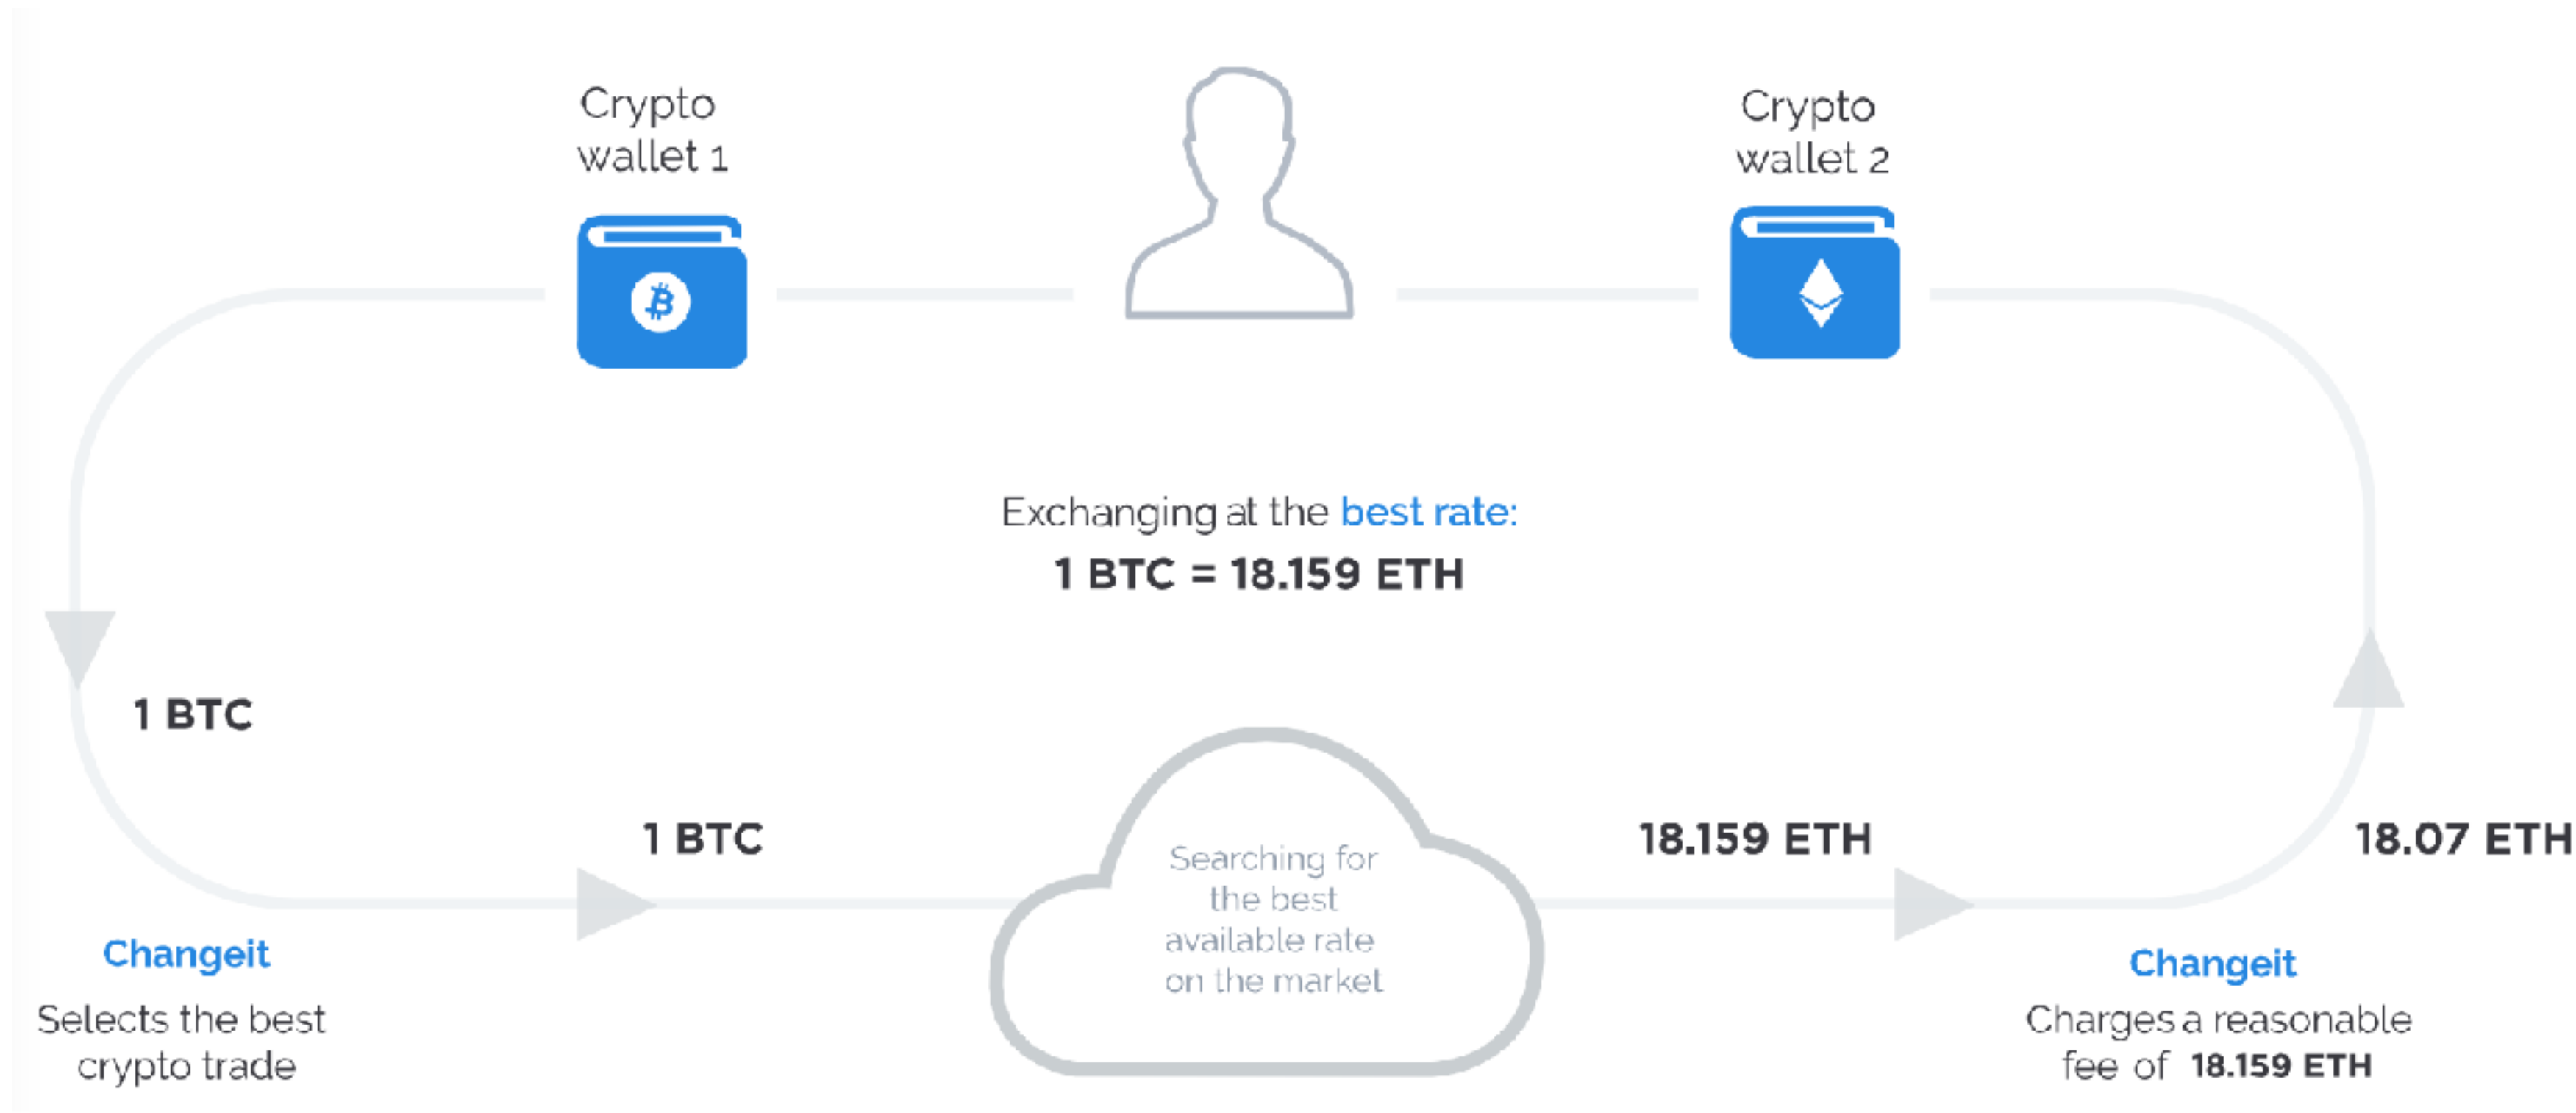

## BITCOINSTANT.EXCHANGE

This is an instant exchange platform where you can exchange between varieties of crypto currencies instantly.

The website provides liquidity itself by reserving coins and exchange with other online services.

It's also possible to buy coins directly via VISA cards.

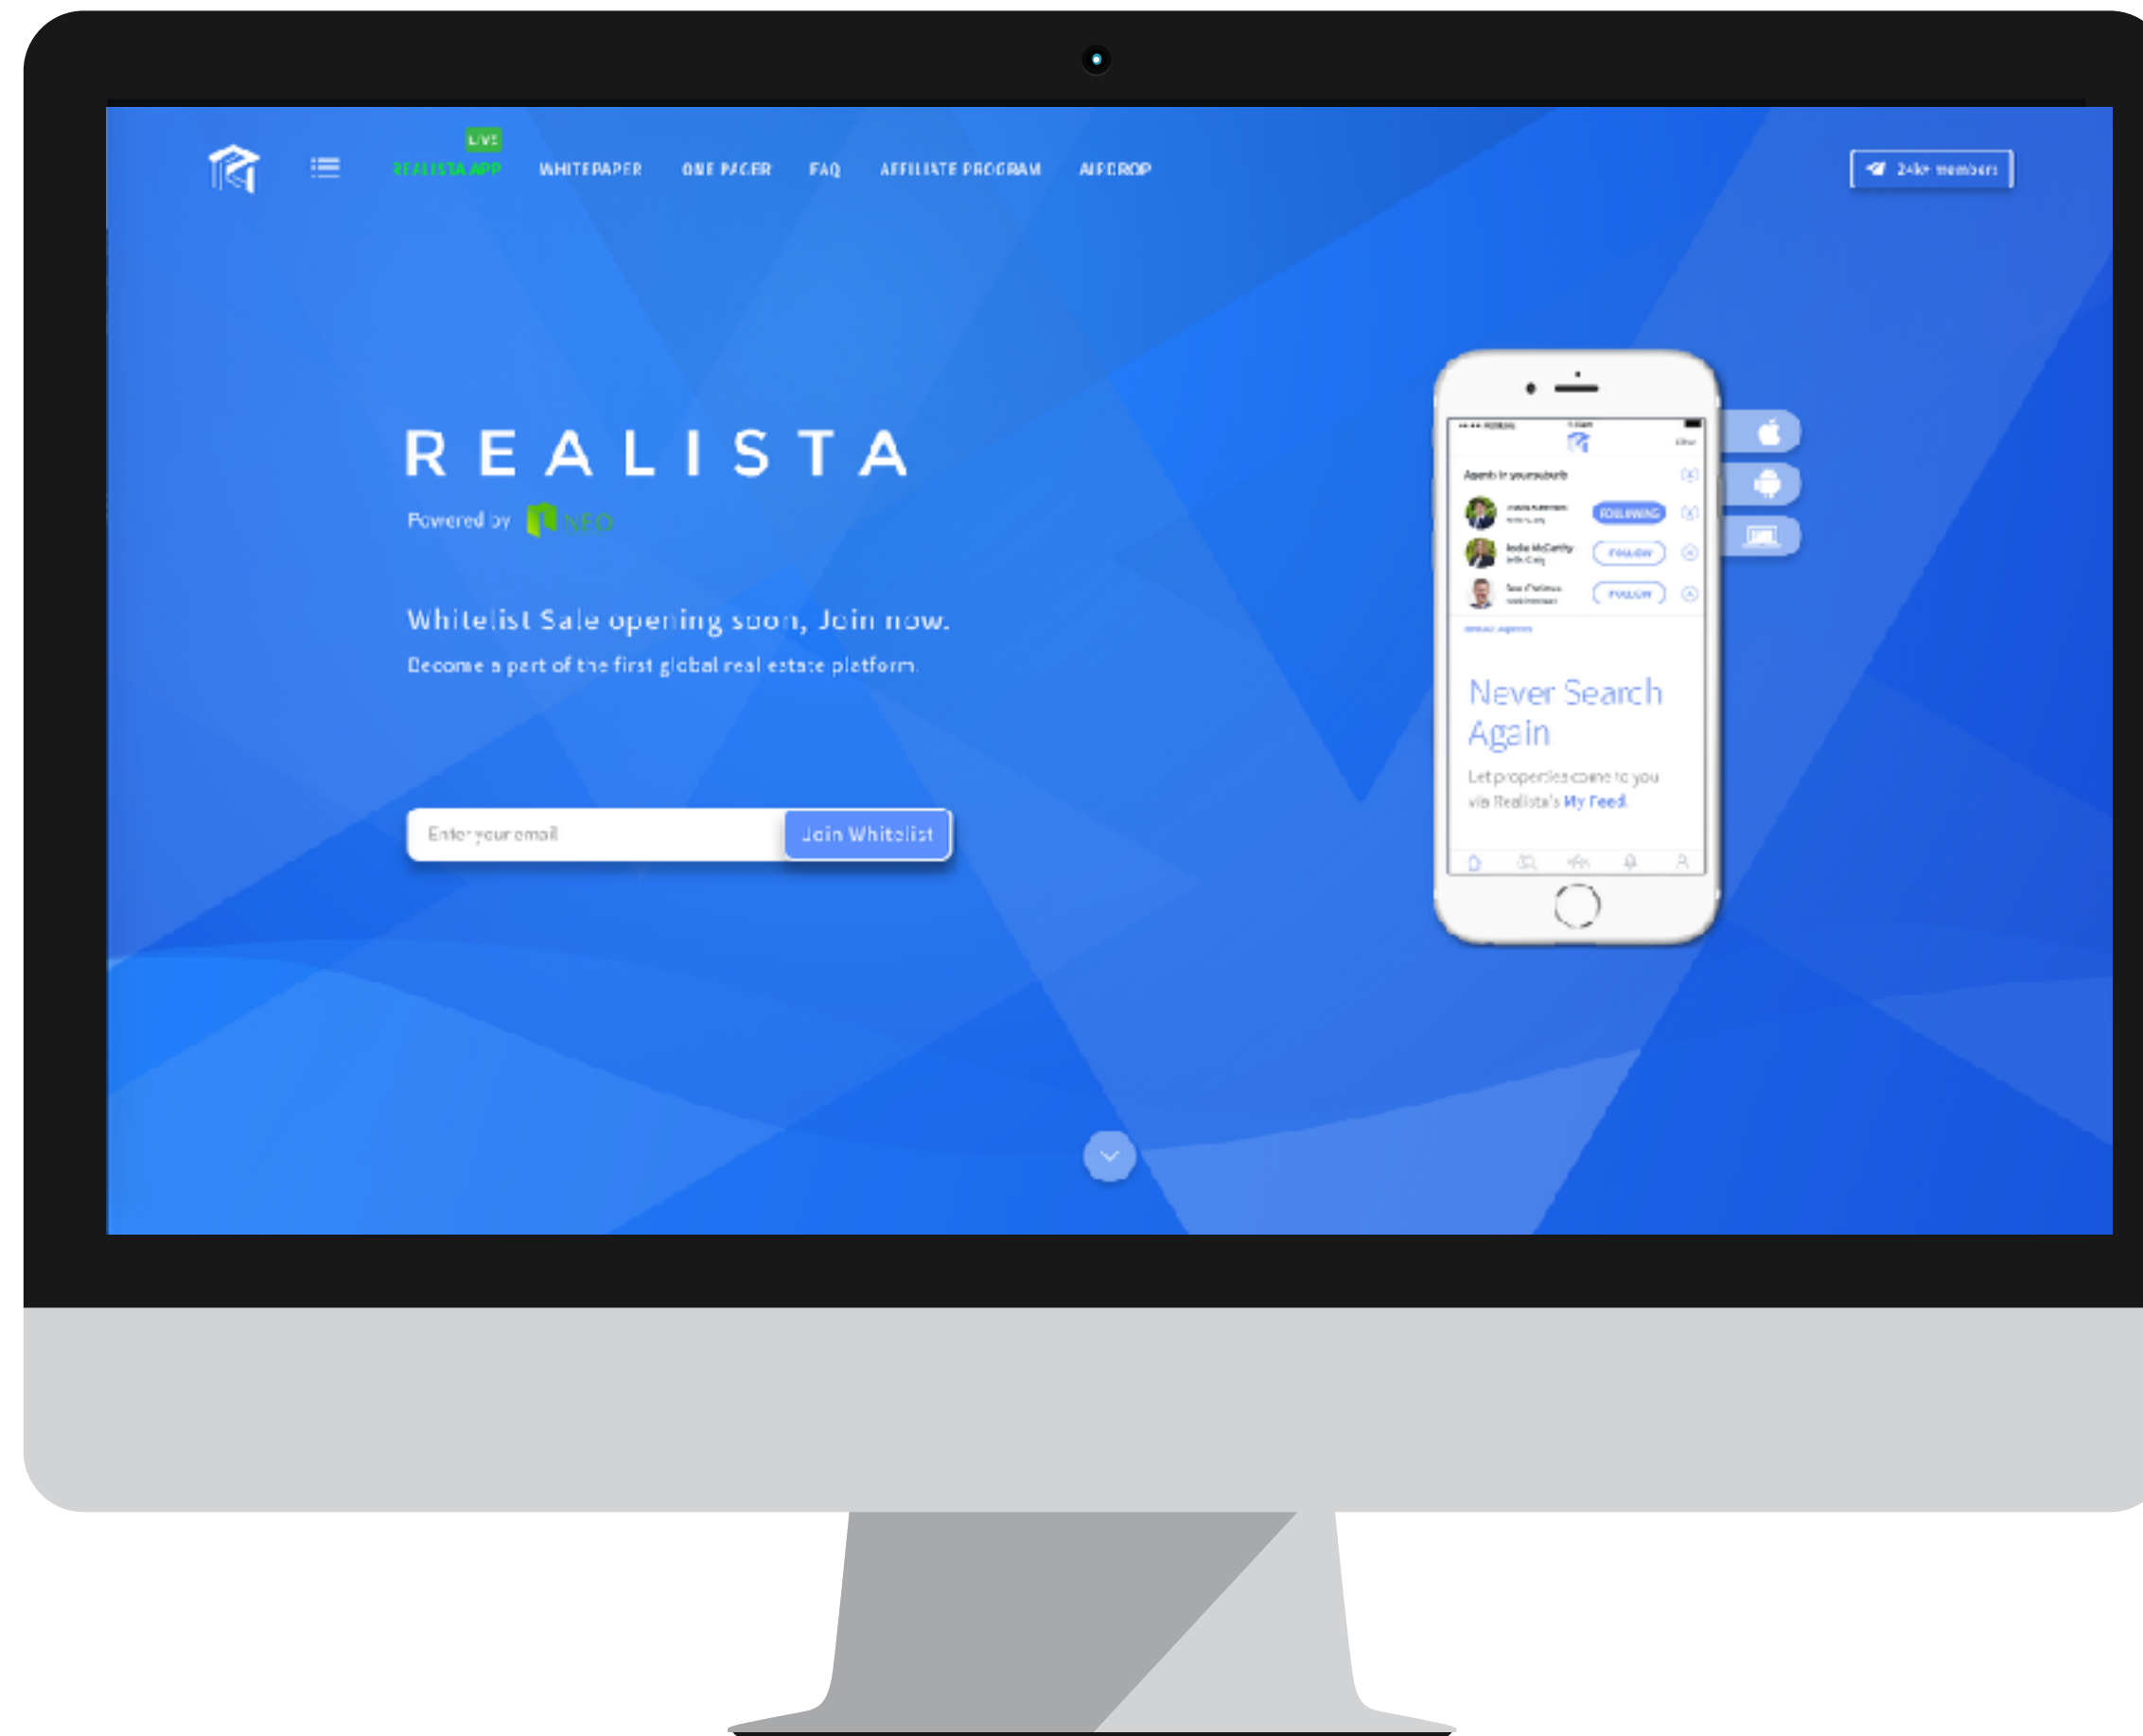

# BITCOINSTANT.EXCHANGE

## HOW IT WORKS

# ICO SHOWCASE

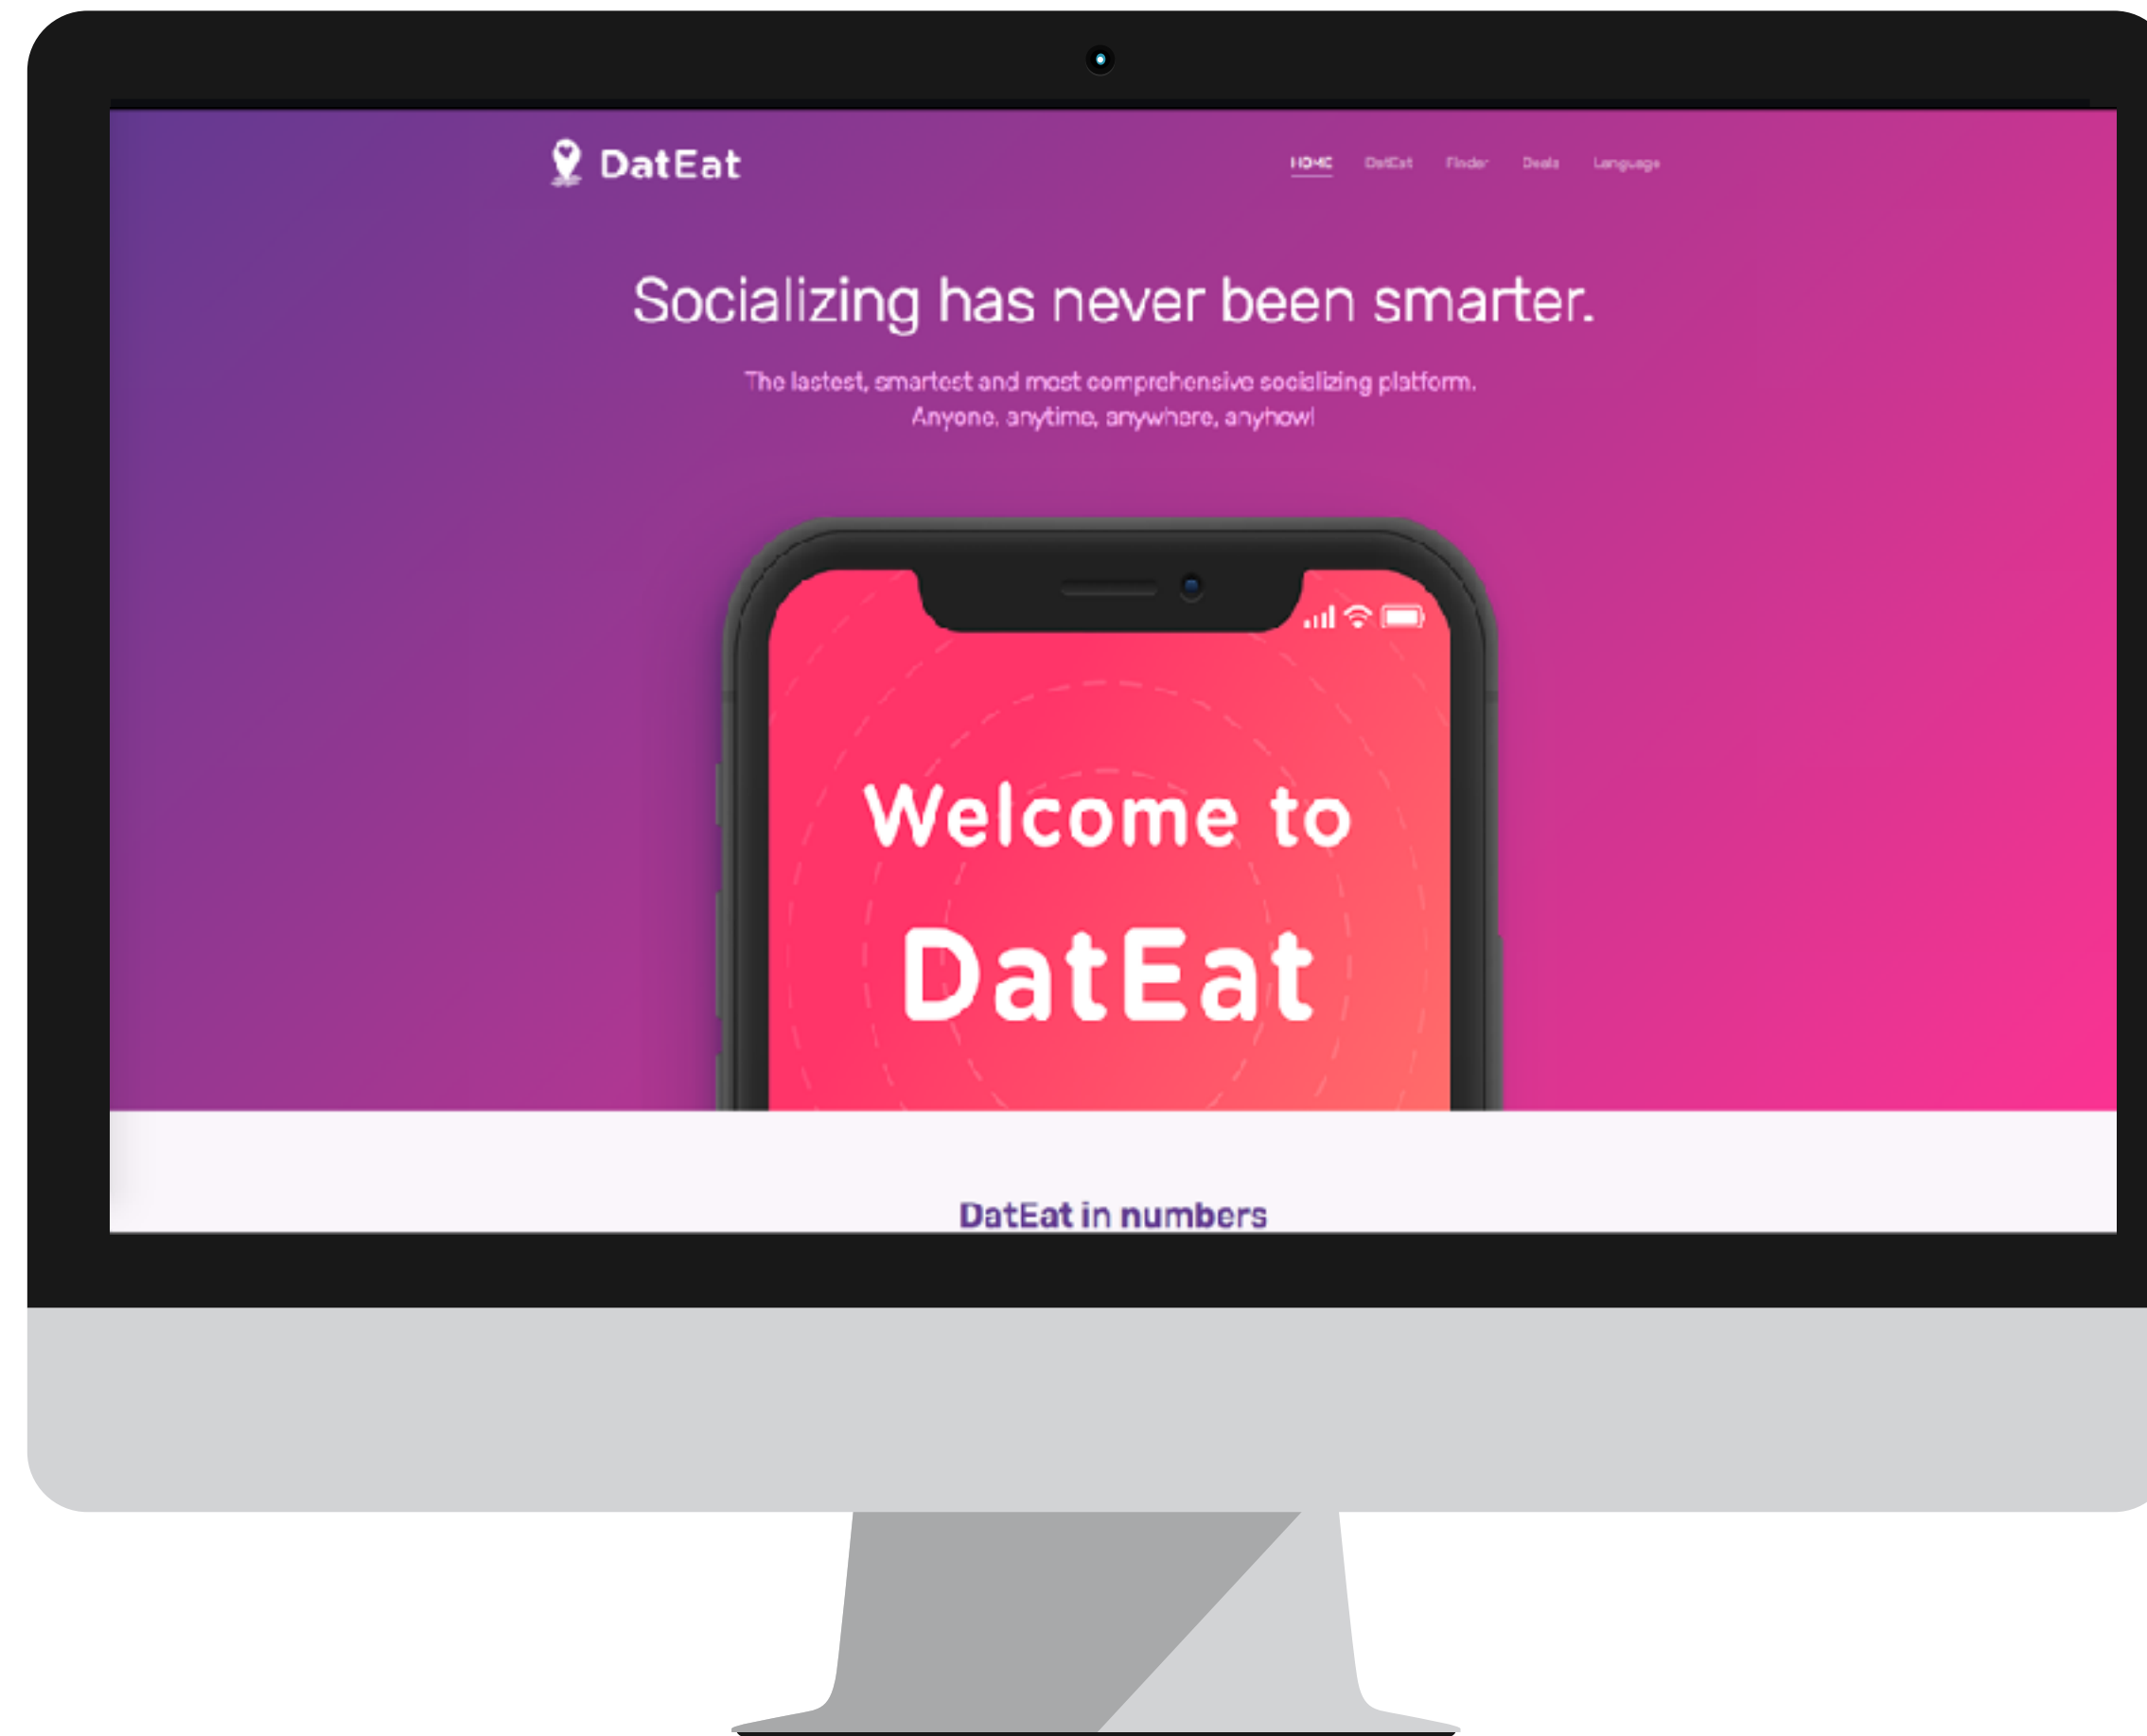

## REALISTATOKEN.COM

Realista is a global real estate platform available on Android, iOS and Web with over 40,000 registered agents across Australia and New Zealand.

We're in charge of technical part in this ICO. It's based on NEO platform.

# ICO SHOWCASE

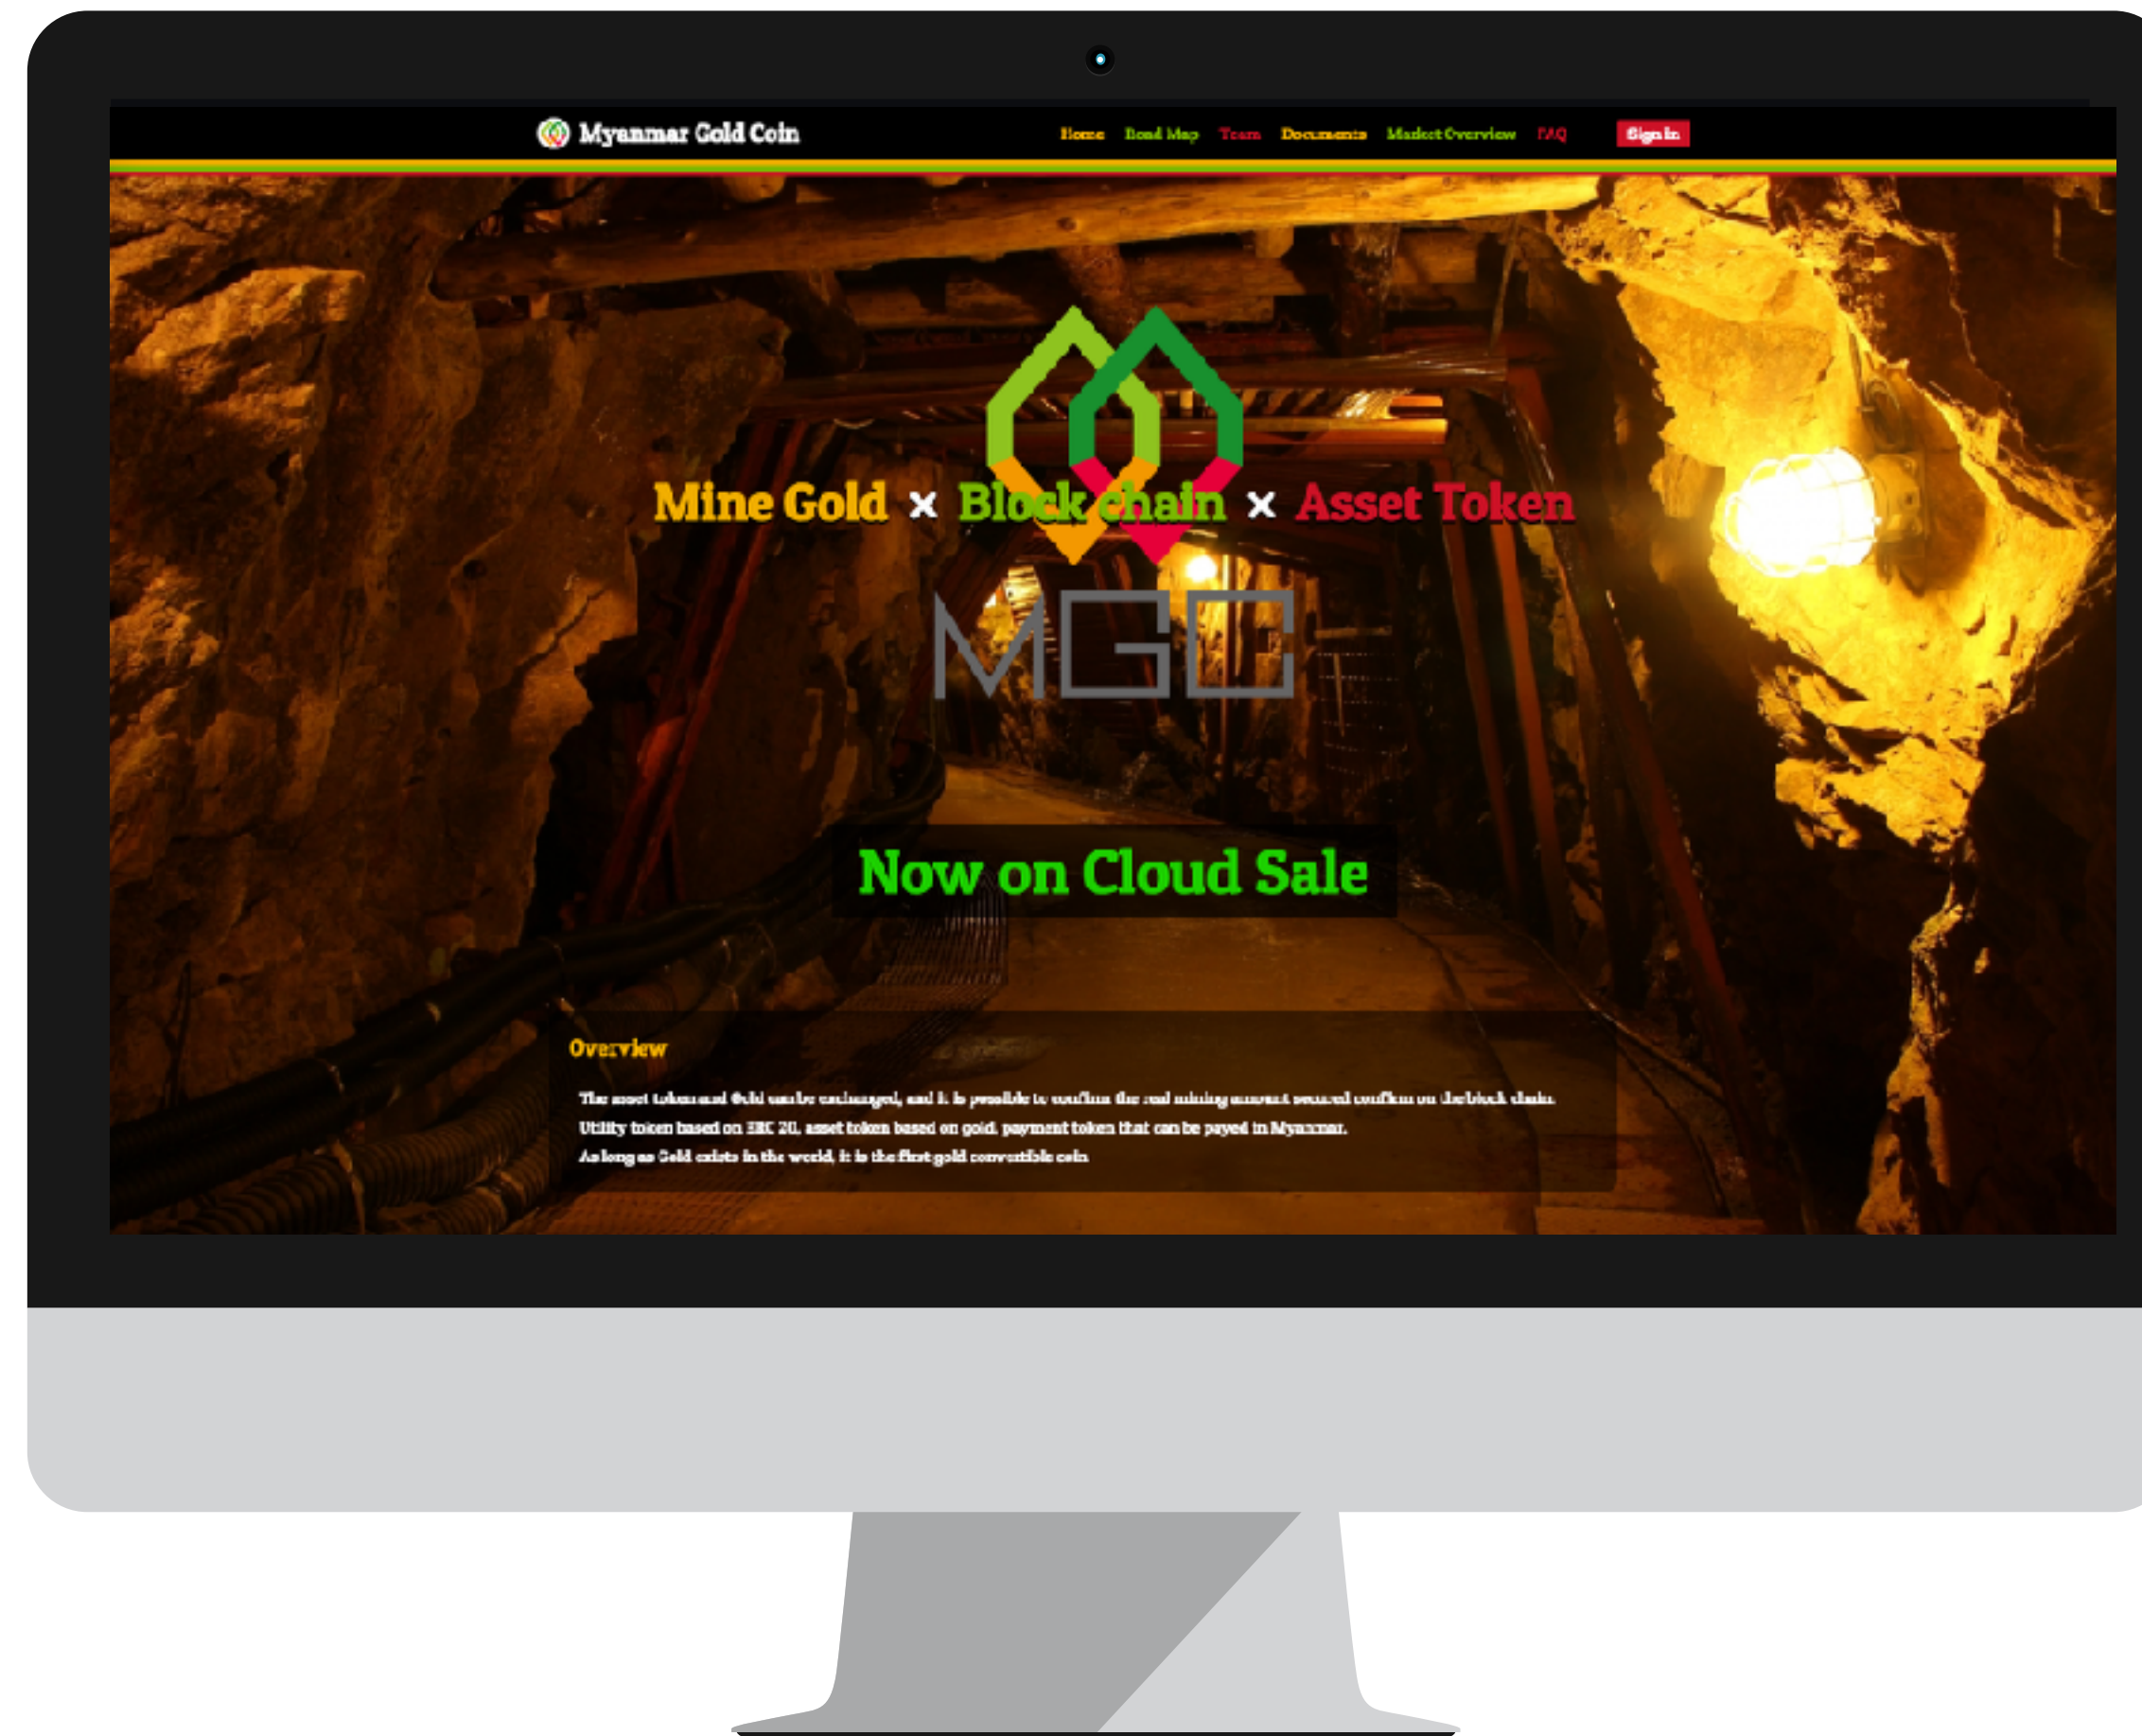

## DATEAT.IO

dateat.io use blockchain to disrupt the dating services. It's a place where people can LOOK AROUND and connect with each other while receiving thousands of deals and vouchers from its merchants.

We developed the Ethereum smart contract for this ICO in solidity.

# ICO SHOWCASE

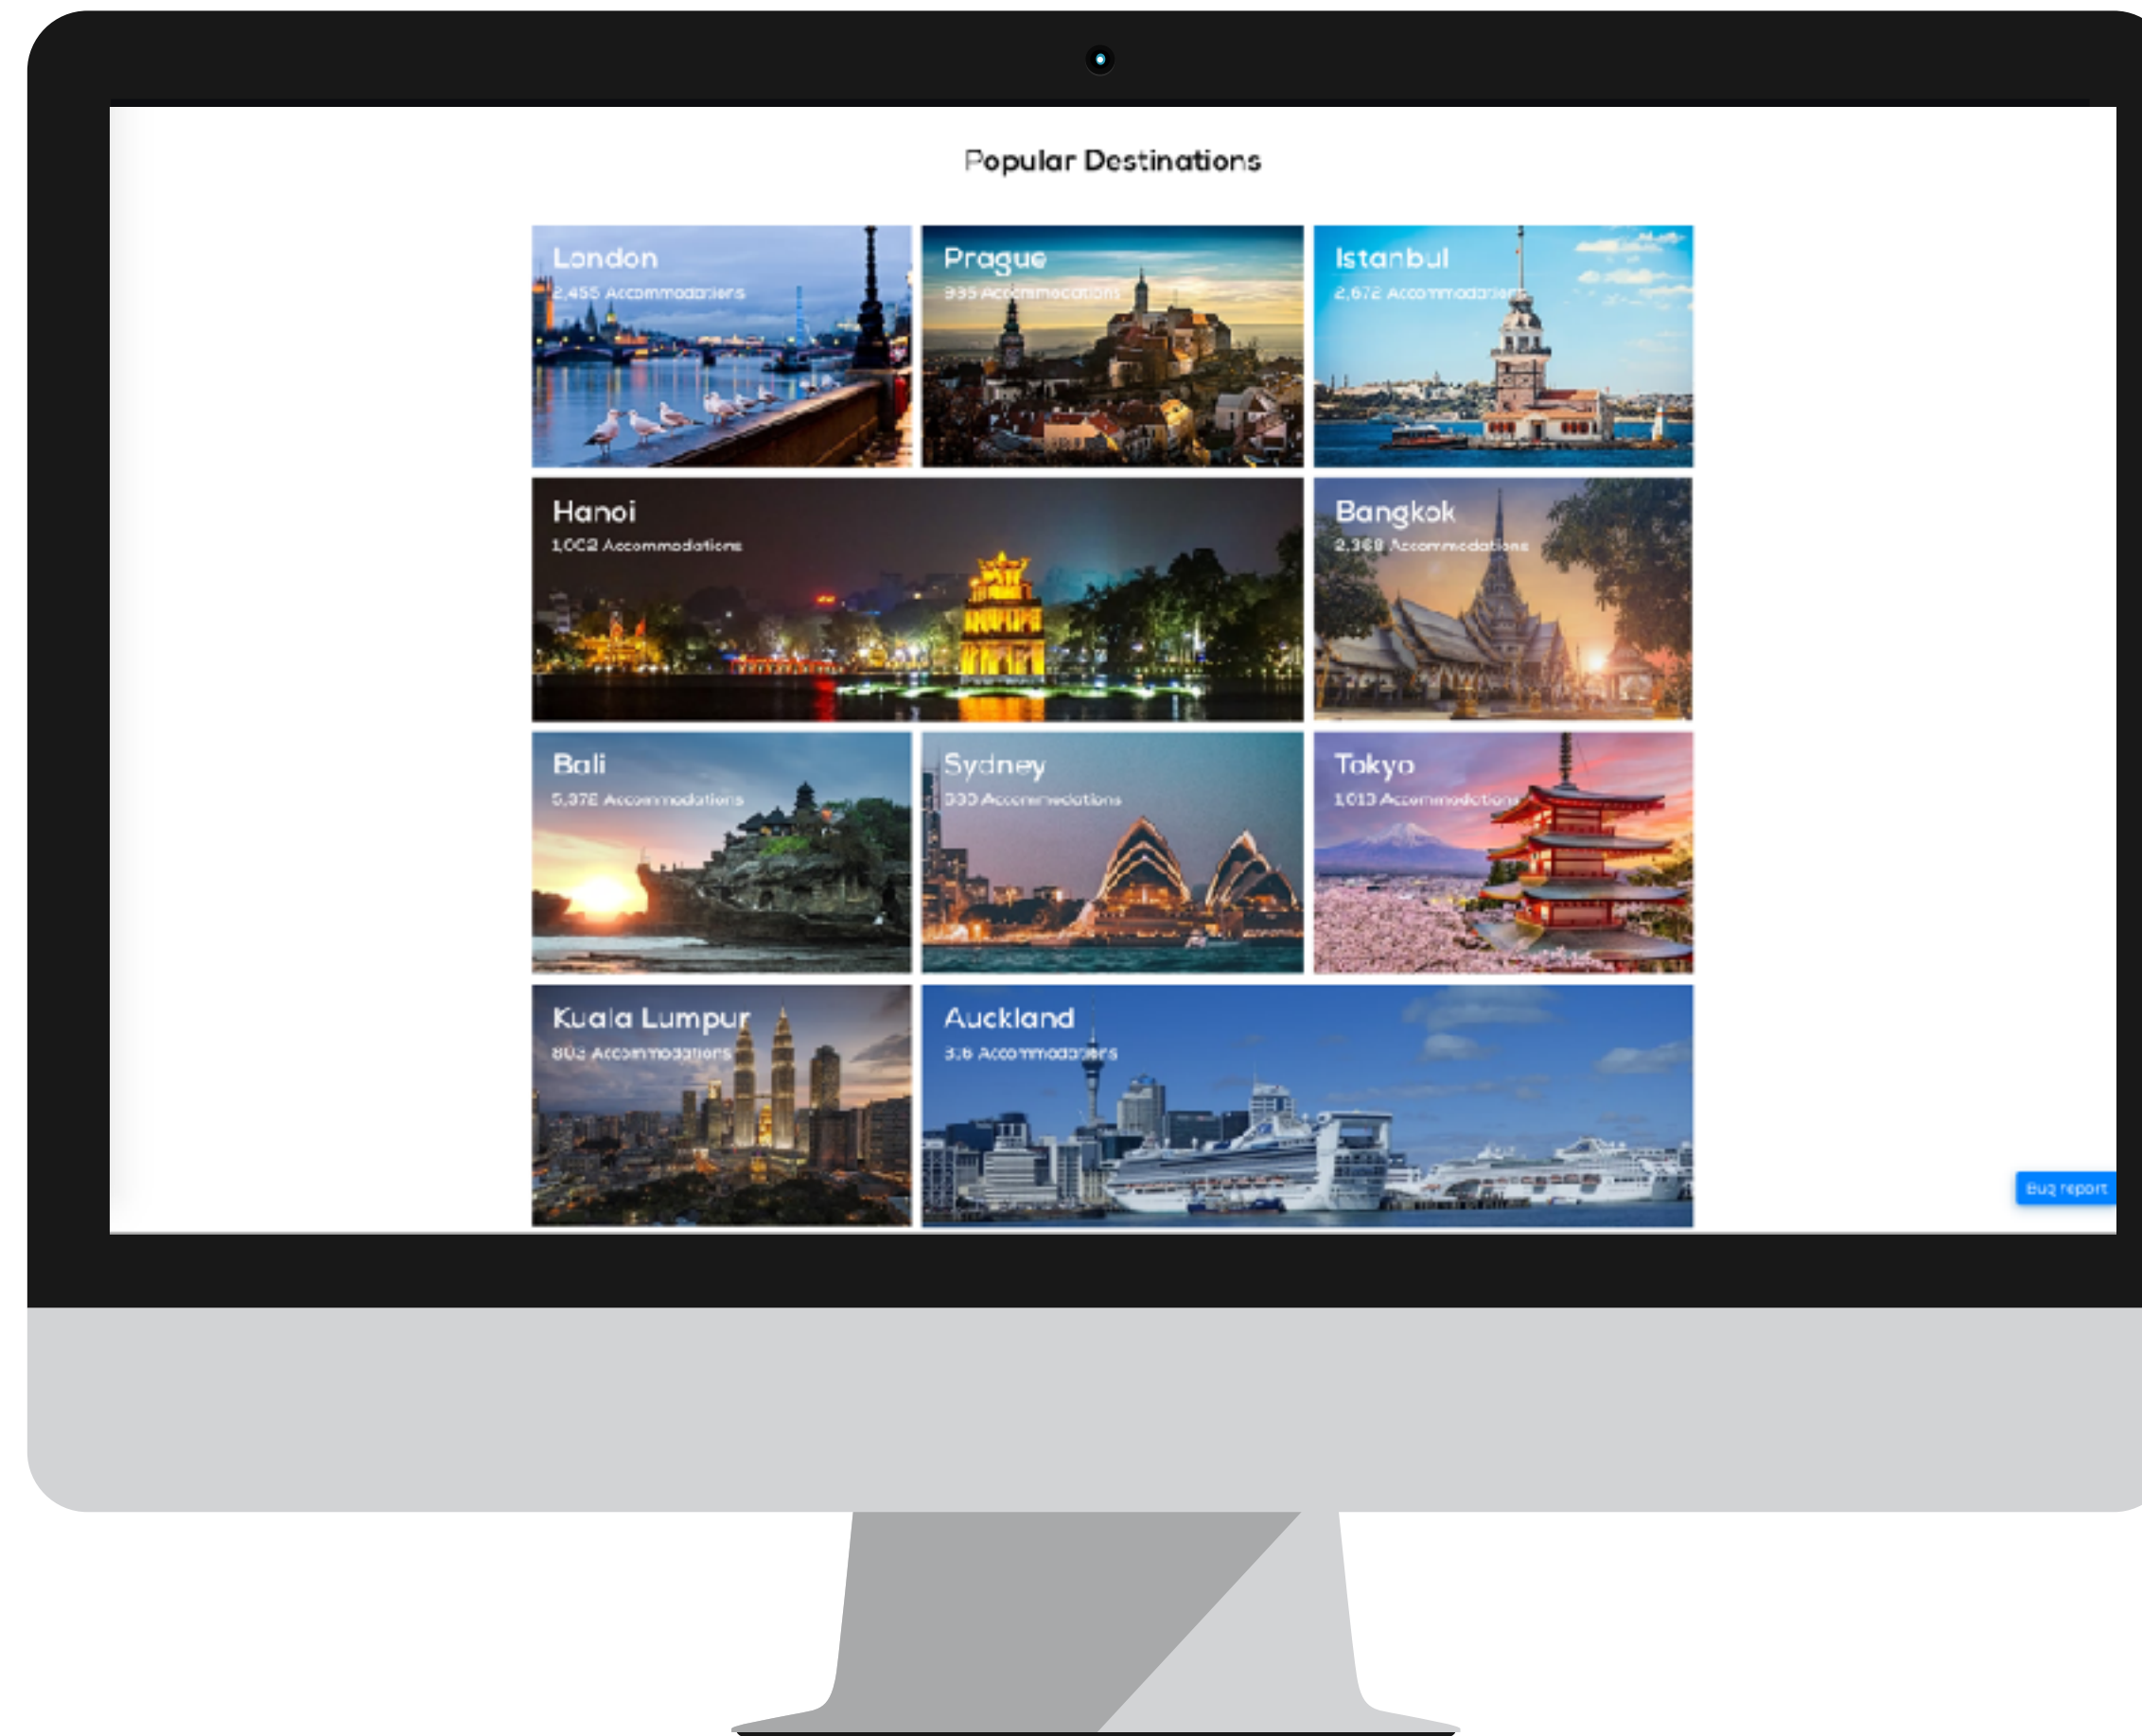

## MGC.GOLD

This project aims to develop a crypto currency backed by real gold. The client has real mining business in Myanmar and struggling to find a way to liquidate gold

This is not an usual ICO where users can buy the ERC20 token from both ETH and BTC. We managed to make a solution for that

# ICO SHOWCASE

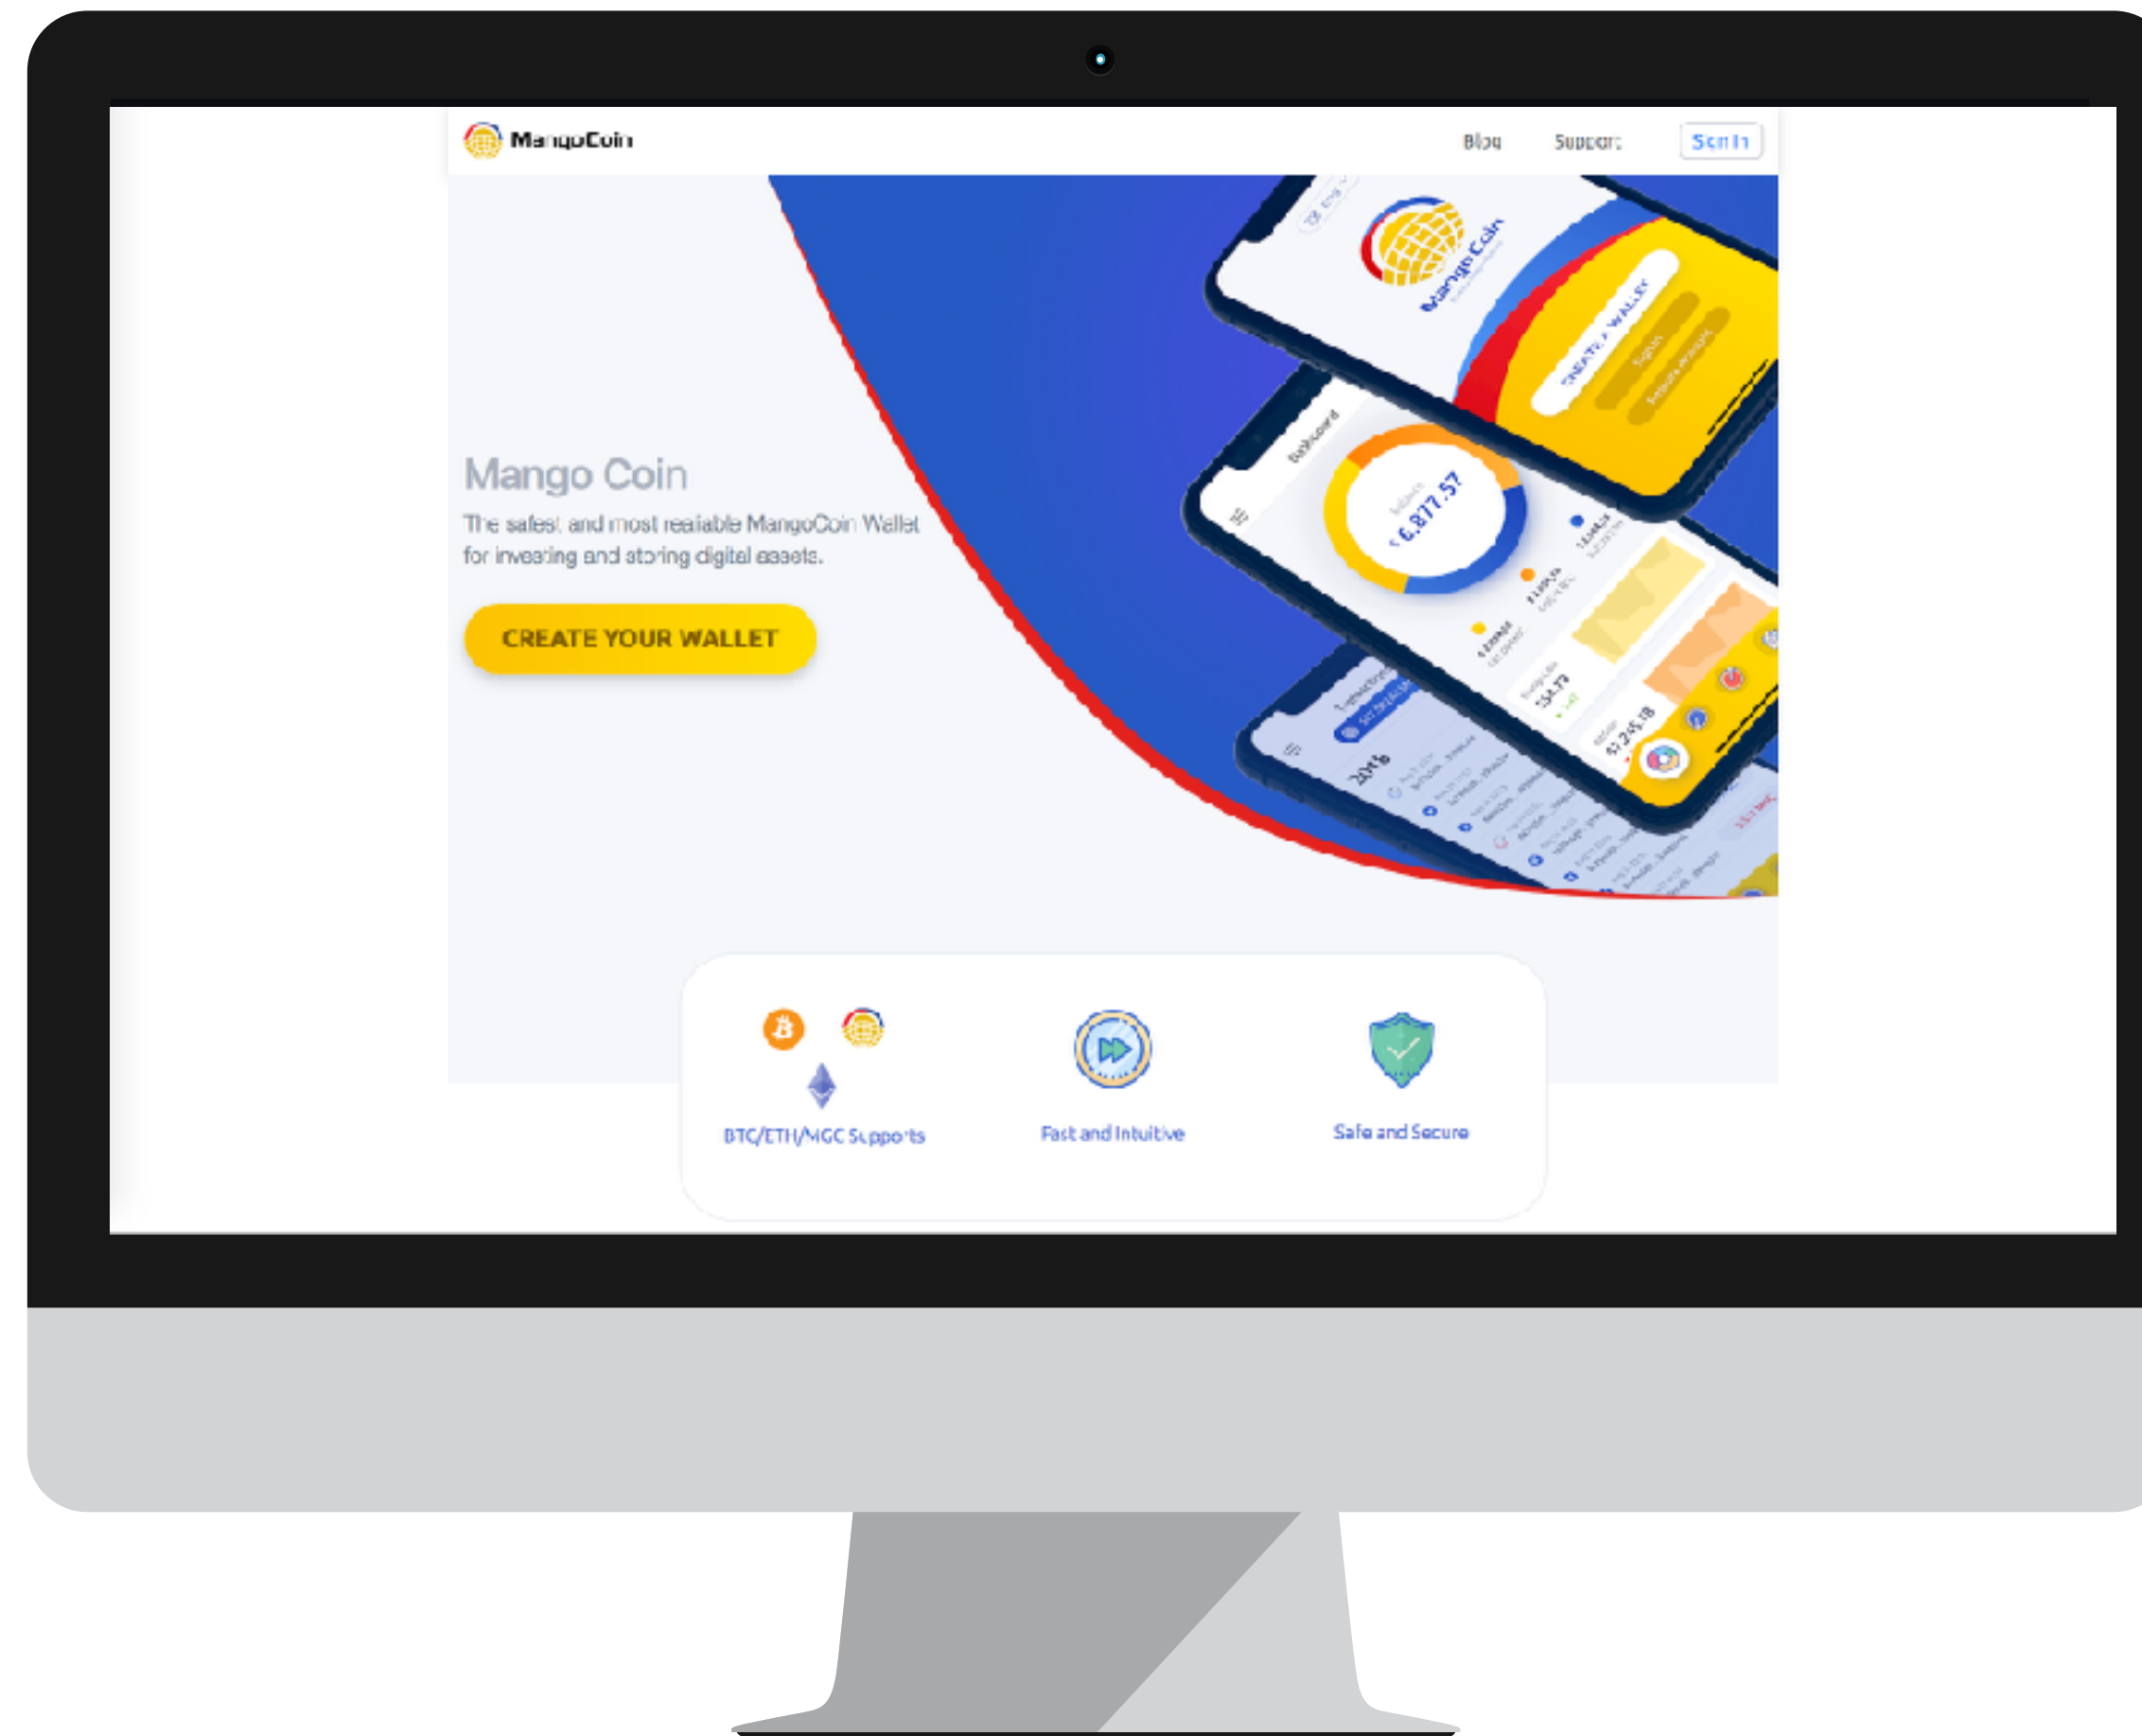

## TRAVALA.COM

This project uses blockchain to disrupt the travel booking industry. Their token is used as a payment method and customer's loyalty point.

We run their ICO in NEO platform and develop their wallet. The ICO went successfully and raised more than 2 millions USD.

# WALLET SHOWCASE

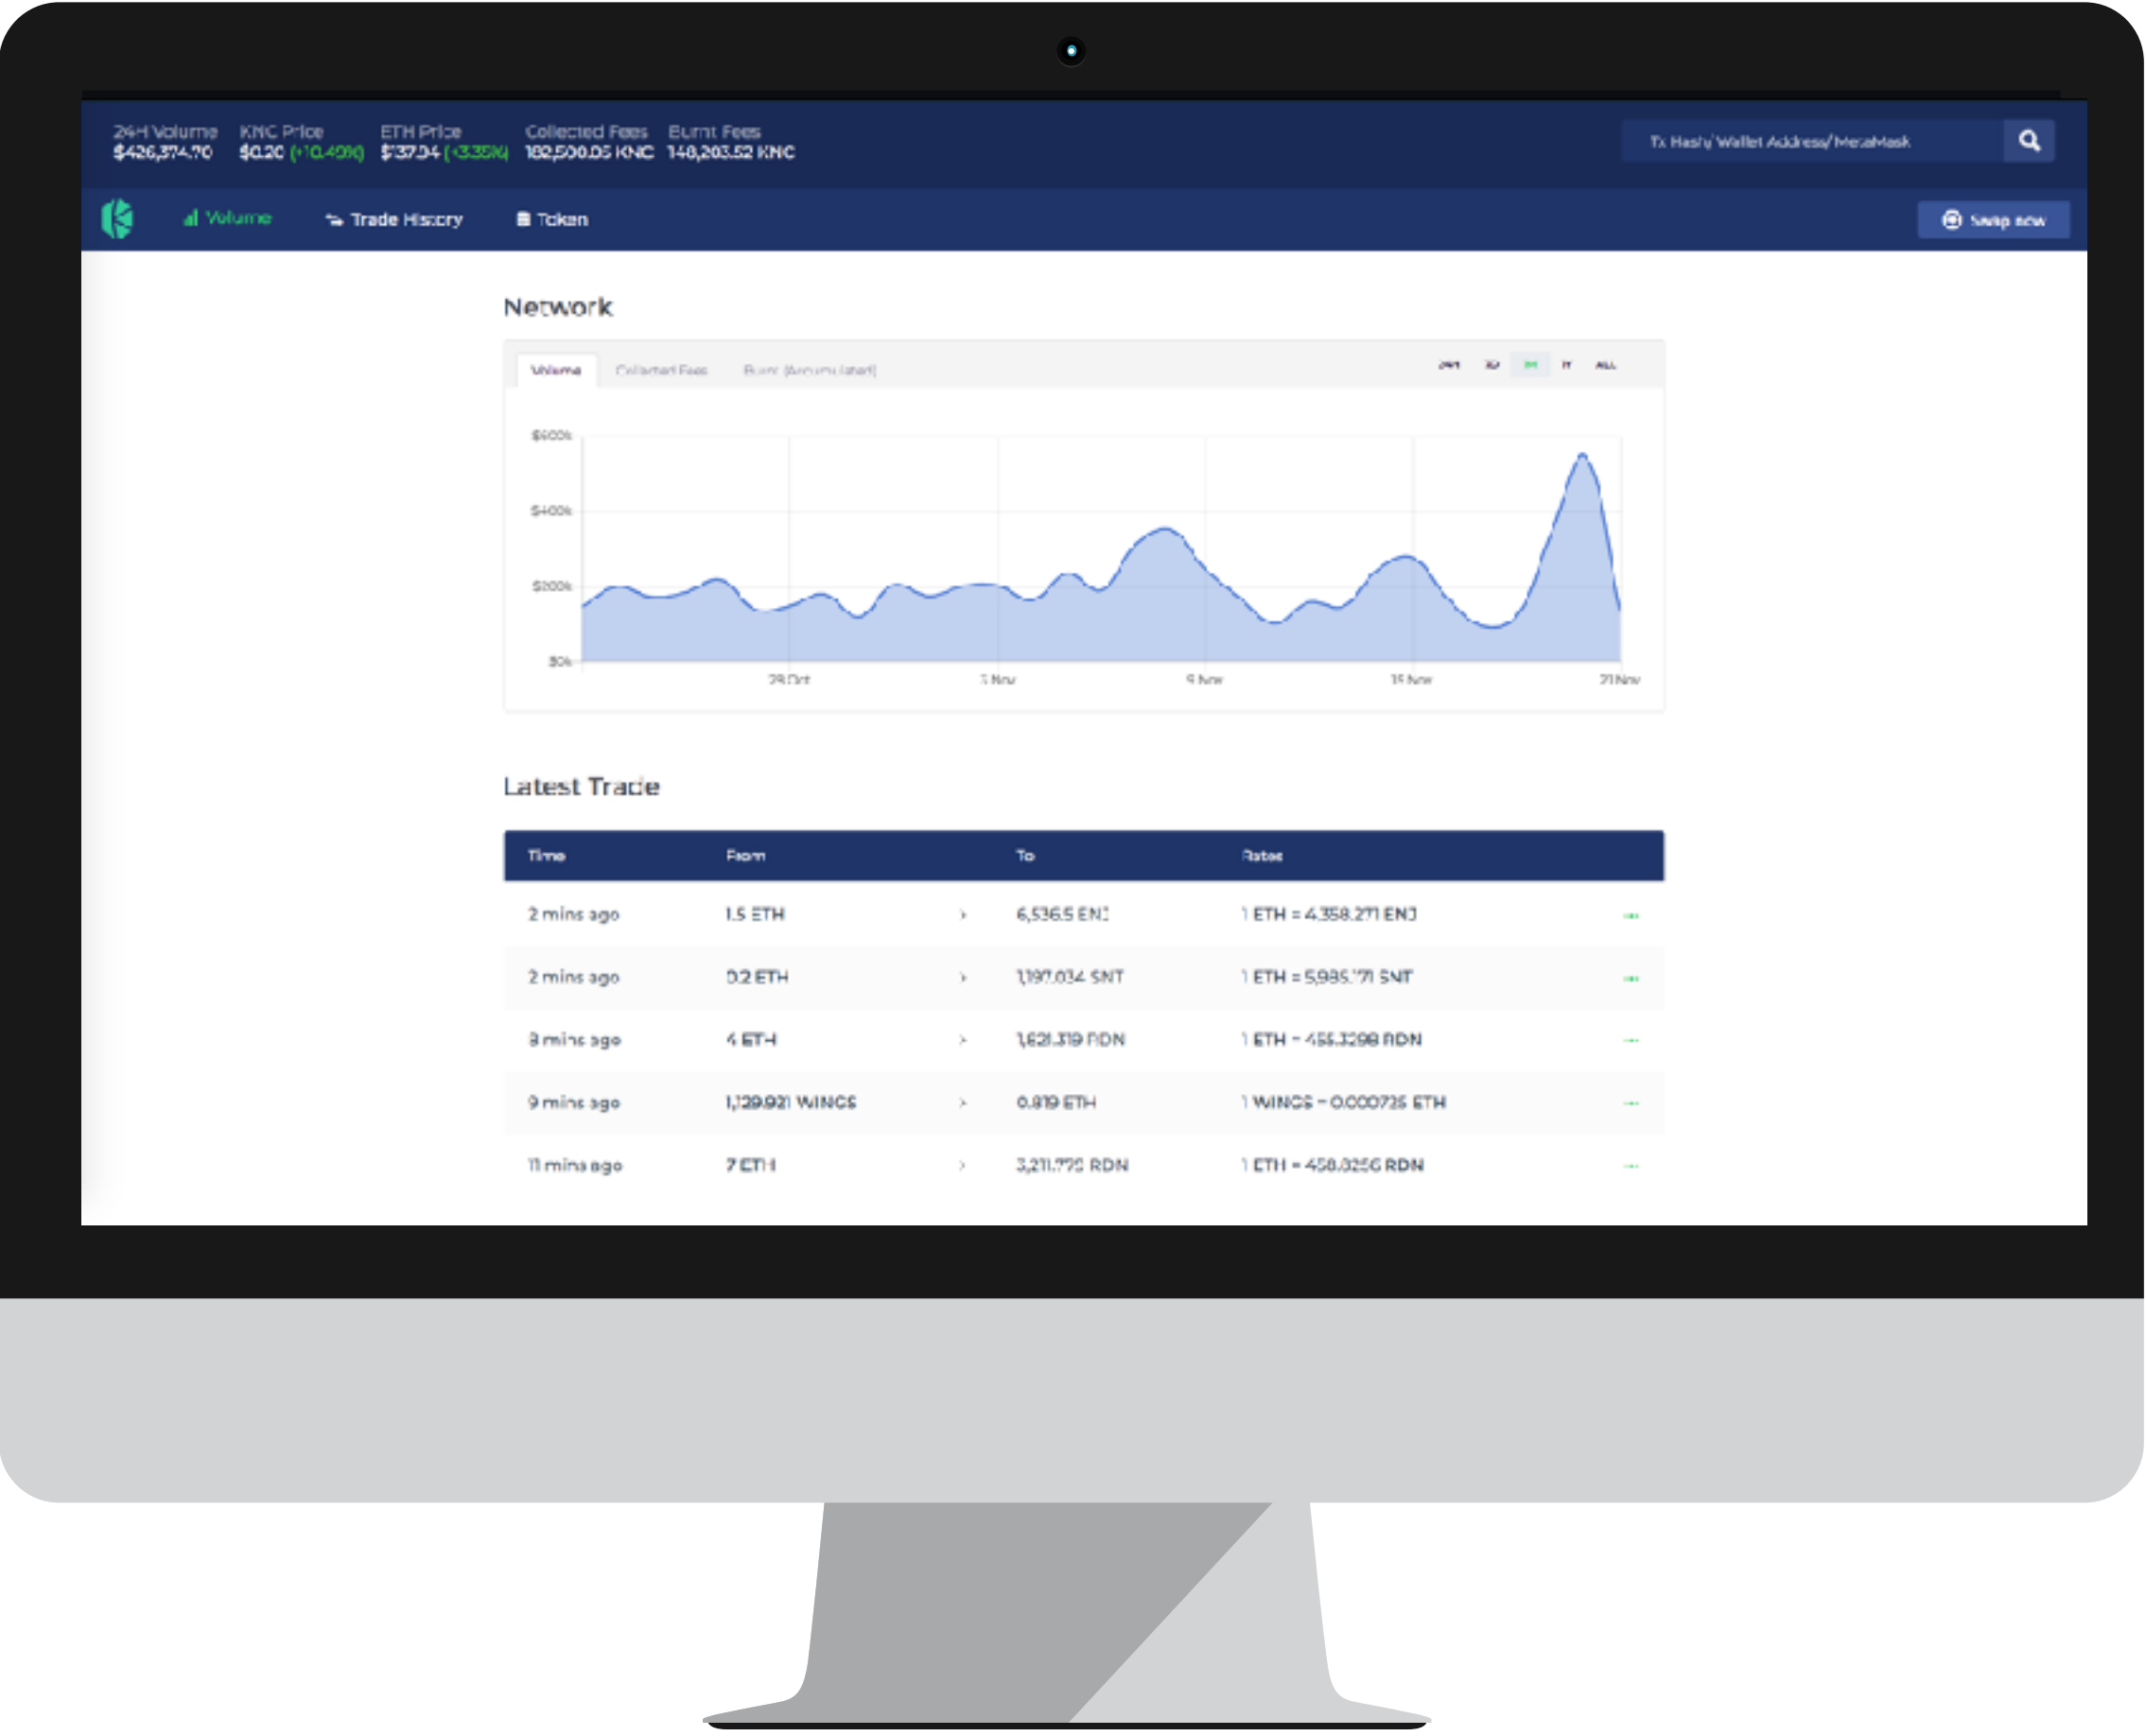

## MANGO-WALLET.COM

The safest and most reliable MangoCoin Wallet for investing and storing digital assets. Apart from MangoCoin, it also can store your BTC and ETH.

- **Multisignature**  
Multisignature confirmation for each transaction
- **Limit per day/week**  
Minimize the risk of theft
- **Secure authentication**  
2FA, pin-code and Fingerprint support

# CUSTOM SOLUTION

# TRACKER.KYBER.NETWORK

<https://kyber.network> is a decentralized exchange which all the transactions are happening on-chain. It raised more than 55 millions USD in its ICO

We're ordered to make a system that tracks every transactions in kyber.network
